Parts and Accessories for Triumph TR2, TR3, TR3A, TR3B, TR4 and TR4A

1953 to 1967

„Wherever you go - it's more fun when you drive a Triumph"

The so-called TS20, a prototype Roadster was presented to the audience at the London Motor Show in October 1952. Following this concept car, the team around of chief engineer Ken Richardson developed the TR2 during the winter of 1952/53, but quite different to the initial design. This car had a new chassis frame, more powerful engine and lengthened tail style.

The official launch of the TR2 took place on the 9th of March 1953 at the Geneva Motor Show. The engine was a twin carburettor Standard Vanguard engine that was capable of producing 90 BHP and achieving a 105 MPH top speed. The first two hand-assembled cars were completed in July 1953 and finally production of the TR2 began in August 1953. Every single car included extra features without extra cost: more joy in driving.

In October 1955 the TR2 got a minor facelift and was named TR3. The new model was attached with a new ‚egg-box' radiator grille, side screens with sliding windows, chromed bonnet and boot hinges, polished stainless steel wing beadings, a new front badge now read TR3, a new passenger seat with tilt back and an optional occasional rear seat. Mechanical changes were few, the most obvious being the slightly modified cylinder head, the change to 1.3/4" SU-H6 carburettors. These changes provided 95 BHP, an increase of 5%. A reel sensation took place in August 1956. From commission no. TS13046 onwards The TR3 was the first British production car equipped with front disc brakes. On the continent only the popular Citroen DS19 was fitted with disc brakes.

The best selling side screen TR, which took over from the TR3 in September 1957 was the TR3A. The obvious revisions for these models was a new full-width radiator grill with integrated indicator lamps, an altered front bumper, a new front shroud with new badge and lockable external door and boot handles. Several significant visual modifications in October 1959 after commission no. TS60001.

The TR3B, which was manufactured between March and December 1962, was a special limited production run for the North American export market. It had the body of the TR3A, but the all-synchro gearbox from the TR4.

The Triumph TR4 was introduced in July 1961 and was the first Leyland TR. The body had been given a modern and updated appearance by car designer Giovanni Michelotti. The engine featured a larger capacity with 2138cc. (86mm bore); a new and more effective heater was fitted. A rack and pinion steering replaced the worm type steering box used on its predecessors and an all-synchro gearbox was introduced. Suspension and chassis based on the TR3A. The most desired optional extra was the removable hard top, the so-called surrey top.

A straightforward evolution of the TR4, the TR4A was introduced in January 1965. The major changes for this model were the independent rear suspension with a new differential which was attached to the chassis and the drive reached the wheels by way of drive shafts with universal joints at each end. These revisions required a redesigned frame and a number of small changes and refinements on the front suspension. Apart from the suspension the electrical system was converted to negative earth. Also handbrake, radiator, exhaust system and clutch underwent technical modifications. Parallel to the IRS models approximately 7.000 TR4A were prepared with solid rear axles as LHD models for the North American market. In July 1967 finally the TR4-cylinder production ceased. A total of 152.378 TR2 to TR4A left the factory in Canley.

We are proud to present our new catalogue that will help you to keep your classic Triumph on the road. We have more than 600 pages of Triumph parts, this covers almost every part produced by Triumph. We, together with our English sister company SC-Parts Group Ltd will undertake every effort to find those parts that are deemed to be no longer available.

At this point of the copy deadline our parts database covers exactly 485.048 different items, many of the items are in stock at our central warehouse which has been expanded to keep up with the demand of new ranges. More than 100.000 lines are kept on the shelf for fast and efficient dispatch on over 55.000 sq. foot of storage space:

I.e. order today, receive tomorrow!

- **Orders accepted by**: Fax, e-mail, internet, post or telephone
- **Despatch:** Next day delivery for every order given until 16.00
  Next day courier possible
- **Warehouse:** More than 100.000 items on stock
- **No minimum order**
- **No costs for packaging**
  (except engines, gearboxes, glass, long exhausts)
- **Carriage charge only**
- **Payment**: All major credit cards or cash by delivery
- We invite you to **visit our shops**
- **Opening times**
  Mo - Fr: 8.00 - 18.30
  Sa: 8.30 - 13.00

We wish to thank all those people who helped us with the production of this catalogue, in particular Mr. Terry Bennett (the smallest but best boss ever) for his knowledge and expertise. Also a big thank to Mr. Jens-Uwe Strunk for his help on the introduction of this catalogue and a very special thank to Mr. Ron on this funny island. Thank you all for the hard work and dedication in producing this Triumph owner's bible.

Chapter 1 - Engine

1.1 Exchange engines 2
1.2 Oil sump 4
1.3 Crankshaft 6
1.4 Cylinder block 12
1.5 Cylinder head 14
1.6 Oil filter - Purolator ‚bypass' type 18
1.7 Oil filter - Purolator ‚full flow' type 20
1.8 Oil filter - Tecalemit ‚full flow' type 22
1.9 Engine mountings 24
1.10 Engine breather system 26

Chapter 2 - Gearbox and overdrive

2.1 Gearbox, 3 synchro outer - TR2 to TR3A 28
2.2 Gearbox, 3 synchro inner - TR2 to TR3A 32
2.3 Gearbox, 4 synchro outer - TR3B to TR4A 36
2.4 Gearbox, 4 synchro inner - TR3B to TR4A 42
2.5 Overdrive - ‚A' type, outer 46
2.6 Overdrive - ‚A' type, inner 50

Chapter 3 - Clutch

3.1 Clutch 54
3.2 Clutch pedal and pedal box 56
3.3 Clutch hydraulics - TR2, TR3 to TS13045 58
3.4 Clutch hydraulics - TR3 from TS13046, TR3A 62
3.5 Clutch hydraulics - TR4, TR4A 64

Chapter 4 - Cooling system

4.1 Radiator - TR2 to TR4 66
4.2 Radiator - TR4A 68
4.3 Thermostat housing and radiator hoses 70
4.4 Water pump and fan blade 72

Chapter 5 - Engine controls

5.1 Engine controls 74

Chapter 6 - Carburettor and air filter

6.1 SU-H4 carburettor and air filter - TR2 76
6.2 SU-H4 carburettor linkage - TR2 78
6.3 SU-H4 internal carburettor - TR2 80
6.4 SU-H6 carburettor and air filter - TR3, TR3A, TR3B and TR4 84
6.5 SU-H6 carburettor linkage - TR3, TR3A, TR3B and TR4 . . . 86
6.6 SU-H6 internal carburettor - TR3, TR3A, TR3B and TR4 . . . 88
6.7 Zenith Stromberg 175CD carburettor and air filter - TR4 from CT21471E and TR4A 92
6.8 Zenith Stromberg 175CD carburettor linkage - TR4 from CT21471E and TR4A 94
6.9 Zenith Stromberg 175CD internal carburettor - TR4 from CT21471E and TR4A 96
6.10 SU-HS6 carburettor and air filter - TR4A from CTC62191 . . . 98
6.11 SU-HS6 carburettor linkage - TR4A from CTC62191 100
6.12 SU-HS6 internal carburettor - TR4A from CTC62191 102

Chapter 7 - Fuel pump and fuel tank

7.1 Fuel tank - TR2, TR3, TR3A and TR3B 106
7.2 Fuel tank - TR4 and TR4A 108
7.3 Fuel pipes and fuel pump - TR2, TR3, TR3A and TR3B . . . 110
7.4 Fuel pipes and fuel pump - TR4 112
7.5 Fuel pipes and fuel pump - TR4A 114

Chapter 8 - Front suspension

8.1 Shock absorber and coil spring - TR2 to TR4 116
8.2 Wishbone and anti roll bar - TR2 to TR4 118
8.3 Vertikal link and wheel hub - TR2 to TR4 122
8.4 Shock absorber and coil spring - TR4A 126
8.5 Wishbone and anti roll bar - TR4A 128
8.6 Vertikal link and wheel hub - TR4A 132

Chapter 9 - Manifold and exhaust

9.1 Inlet and exhaust manifold 134
9.2 Exhaust system - TR2 to TR4 136
9.3 Exhaust sytem - TR4A to approx. CTC70000 140
9.4 Exhaust system - TR4A from approx. CTC70001 142

Chapter 10 - Steering

10.1 Steering box and steering wheel - TR2, TR3, TR3A and TR3B 144
10.2 Steering rods and steering idler - TR2, TR3, TR3A and TR3B 148
10.3 Steering rack - TR4 and TR4A 150
10.4 Steering column and steering wheel - TR4 and TR4A . . . 154

Chapter 11 - Rear suspension

11.1 Suspension and shock absorber - TR2, TR3, TR3A, TR3B, TR4 to CT23382 with solid axle . . 158
11.2 Suspension and shock absorber - TR4 from CT23383 with solid axle 160
11.3 Suspension and shock absorber - TR4A with solid axle . . 162
11.4 Suspension and shock absorber - TR4A IRS 164
11.5 Solid axle Lockheed type - TR2, TR3 to TS13045 166
11.6 Solid axle Girling type - TR3 from TS13046, TR3A, TR3B, TR4 and TR4A 170
11.7 IRS axle - TR4A 174
11.8 Drive shaft - TR4A IRS 178
11.9 Propshaft. 180

Chapter 12 - Brake hydraulics

12.1 Brake hydraulics - TR2, TR3 to TS13045 182
12.2 Brake hydraulics - TR3 from TS13046, TR3A, TR3B, TR4 and TR4A 184
12.3 Brake pedal and pedal box 186
12.4 Front brakes - TR2, TR3 to TS13045. 188
12.5 Front brakes - TR3 from TS13046, TR3A, TR3B, TR4 and TR4A 190
12.6 Rear brakes - TR2, TR3 to TS13045 192
12.7 Rear brakes - TR3 from TS13046, TR3A to TS56376 194
12.8 Rear brakes - TR3A from TS56377, TR3B, TR4 and TR4A . 196
12.9 Handbrake - TR2 to TR4 198
12.10 Handbrake - TR4A 202
12.11 Brake pipes - TR2, TR3 to TS13045 204
12.12 Brake pipes - TR3 from TS13046, TR3A and TR4 206
12.13 Brake pipes - TR4A IRS. 208
12.14 Brake pipes - TR4A 210

Chapter 13 - Road wheels

13.1 Wheels 212
13.2 Jack and tools. 214

Chapter 14 - Electrics

14.1 Dynamo. 216
14.2 Starter motor 220
14.3 Distributor 224
14.4 Ignition coil, ignition leads and spark plugs 228
14.5 Battery and fittings 230
14.6 Internal electrics - horn, relays and switches 232
14.7 Wiring loom 236
14.8 Instruments - TR2, TR3, TR3A and TR3B 238
14.9 Switches, ignition lock and control head - TR2, TR3, TR3A and TR3B. 242
14.10 Dashboard - TR2, TR3, TR3A and TR3B 244
14.11 Instruments - TR4 und TR4A 248
14.12 Switches and steering lock - TR4 and TR4A. 252
14.13 Dashboard - TR4. 254
14.14 Dashboard - TR4A. 258
14.15 Wiper motor. 262
14.16 Windscreen wiper, rack and wheel box. 264
14.17 Windscreen washer system 266
14.18 Headlamps 268
14.19 Front and side lamps. 272
14.20 Rear lamps. 276
14.21 Number plate lamps 280
14.22 Heater - TR2, TR3, TR3A and TR3B 282
14.23 Heater - TR4 and TR4A. 284
14.24 Fuses and wiring harness fittings 288
14.25 Bulbs 294

Chapter 15 - Chassis and body panels

15.1 Chassis frame and body mountings - TR2 to TR3B 298
15.2 Chassis frame and body mountings - TR4 302
15.3 Chassis frame and body mountings - TR4A with solid rear axle 306
15.4 Chassis frame and body mountings - TR4A IRS 310
15.5 Wings, doors and bonnets - TR2 to TR3B 314
15.6 Outer body repair panels - TR2 to TR3B 316
15.7 Inner body repair panels, front section - TR2 to TR3B . . . 318
15.8 Inner body repair panels, rear section - TR2 to TR3B . . . 320
15.9 Wings, doors and bonnets - TR4 and TR4A 322
15.10 Outer body repair panels - TR4 and TR4A 324
15.11 Inner body repair panels, front section - TR4 and TR4A. . 326
15.12 Inner body repair panels, rear section - TR4 and TR4A . . 330
15.13 Grommets and blanking plugs - TR2 to TR3B. 334
15.14 Grommets and blanking plugs - TR4 and TR4A 338

Chapter 16 - Bumpers

16.1 Bumpers - TR2 and TR3 342
16.2 Bumpers - TR3A and TR3B 344
16.3 Bumpers - TR4 346
16.4 Bumpers - TR4A 350

Chapter 17 - Radiator grille

17.1 Radiator grille - TR2, TR3, TR3A and TR3B. 354
17.2 Radiator grille - TR4 and TR4A. 356

Chapter 18 - Fittings and external trim parts

18.1 Bonnet fittings - TR2 to TS4228. 358
18.2 Bonnet fittings - TR2 from TS4229, TR3, TR3A and TR3B 360
18.3 Bonnet fittings - TR4 and TR4A 364
18.4 Boot lid fittings - TR2, TR3, TR3A and TR3B. 368
18.5 Boot lid fittings - TR4 and TR4A. 370
18.6 Door hinges and door seals - TR2, TR3, TR3A and TR3B. 374
18.7 Door hinges and door seals - TR4 and TR4A 376
18.8 Door locks and handles - TR2, TR3, TR3A and TR3B 378
18.9 Door locks and handles - TR4 and TR4A 380
18.10 Mouldings and wing beadings - TR2, TR3, TR3A and TR3B. 382
18.11 Mouldings and wing beadings - TR4 and TR4A. 384

Chapter 19 - Glass and glazing

19.1 Sidescreens - TR2 to TR3B 386
19.2 Door glass and window regulator - TR4 and TR4A 388
19.3 Windscreen and interior driving mirror - TR2 to TR3B . . . 390
19.4 Windscreen and interior driving mirror - TR4 and TR4A . . 392
19.5 Door mirror and wing mirror 396

Chapter 20 - Seats and interior trim

20.1 Seats and seat covers - TR2 398
20.2 Seats and seat covers - TR3 402
20.3 Seats and seat covers - TR3A and TR3B 406
20.4 Seats and seat covers - TR4 to middle of 1963. 414
20.5 Seats and seat covers - TR4 from middle of 1963 422
20.6 Seats and seat covers - TR4A 430
20.7 Trim kits - TR2 436
20.8 Trim kits - TR3 438
20.9 Trim kits - TR3A to TS60000 440
20.10 Trim kits - TR3A from TS60001, TR3B 442
20.11 Trim kits - TR4 444
20.12 Trim kits - TR4A 450
20.13 Carpet sets - TR2, TR3, TR3A and TR3B. 454
20.14 Carpet sets - TR4 and TR4A. 456
20.15 Hood, tonneau and hood cover - TR2 to TS5255 460
20.16 Hood, tonneau and hood cover - TR2 from TS5256, TR3, TR3A and TR3B 462
20.17 Hood and tonneau - TR4 466
20.18 Hood, tonneau and hood cover - TR4A. 470
20.19 Hard top - TR2, TR3, TR3A and TR3B 474
20.20 Hard top and surrey top - TR4 and TR4A. 476

Chapter 21 - Competition parts and accessories

21.1 Cylinder block and crankshaft. 482
21.2 Cylinder head 485
21.3 Gearbox and overdrive. 488
21.4 Clutch 490
21.5 Cooling system. 491
21.6 Oil cooler. 493
21.7 Fuel system 496
21.8 Carburettor 498
21.9 Sports air filters 500
21.10 Tubular manifolds and stainless steel exhaust systems 503
21.11 Steering. 505
21.12 Wood rim steering wheels 508
21.13 Leather rim steering wheels 510
21.14 Boss kits 511
21.15 Front suspension 513
21.16 Rear suspension and differential. 515
21.17 Brake pads, discs, shoes and 4-pot caliper conversions. 519
21.18 Wheels and tyres 521
21.19 123 ignition, Lumenition and Pertronix ignition systems 526
21.20 Distributors, spark plugs, ignition coils 528
21.21 Headlamps, bulbs and hazard kits. 530
21.22 Battery and accessories 532
21.23 High performance starter motors and alternator conversions. 534
21.24 Wood veneer interior panels. 535
21.25 Interior and exterior chrome 536
21.26 Decals and identification plates 538
21.27 Workshop manuals and drivers handbooks 541
21.28 Books 543
21.29 Special car tools 547
21.30 Workshop tools 549
21.31 Oils and lubricants 552
21.32 Car covers and wing covers 555

Chapter 22 - Hardware

22.1 Screws, bolts, nuts and washers 557

Chapter 23 - Index

04/1954	TR2	Double chamber thermostat housing was replaced by a single chamber type		TS1201
04/1954	TR2	New stop/tail lamps with integrated reflectors were introduced		TS1307
05/1954	TR2	The chassis frames were built now by a company named Sankey		TS1401
07/1954	TR2	Two-piece gear lever was replaced by a one-piece version		TS2876
10/1954	TR2	Start of 1954 model year. The so called ‚short doors' with outer sills under them were introduced, the hood was given two rear quarter windows and a hardtop became available		TS4002
10/1954	TR2	New bonnet with two rear air vents with external release with Dzus fastener by means of a carriage key		TS4229
01/1955	TR2	First TR2 built in 1955		TS5203
03/1955	TR2	The rear brakes were uprated with 10" drums replacing the old 9" units		TS5443
03/1955	TR2	Rear axle now fitted with uprated hub and 41 mm oil seal		TS5556
04/1955	TR2	Overdrive now operating on second, third and top gear. Serial no. of the new unit: 22/61374		TS5980
04/1955	TR2	New scuttle panel with integrated vent lid		TS6157
05/1955	TR2	New overdrive switch		TS6266
08/1955	TR2	New Lucas DM2P4 distributor with serial no. 40480 was introduced		TS8213
10/1955	TR2	End of production of the TR2		TS8636
10/1955	TR3	Start of production of the Triumph TR3. The new model was face-lifted TR2 with a new 'egg-box' radiator grille, side screens with sliding windows, chromed bonnet and boot hinges, polished stainless steel wing beadings instead of the previous rubberised units, a new front badge now read TR3, a new passenger seat with tilt back was fitted and an optional occasional rear seat could be ordered. Mechanical changes were equally few, most obvious being the slightly modified cylinder head, the change to 1.3/4" SU-H6 carburettors and the camshaft was fitted with bearings. These changes provided 95 BHP, an increase of 5 BHP	TS8997E	TS8637
11/1955	TR3	Nylon and steel bushes were fitted to the front suspension lower wishbone		TS9121
11/1955	TR3	A new cylinder head based on the TR2 'Le Mans' head was fitted	TS9350E	TS9350
12/1955	TR3	The bypass oil filter was replaced by a full flow filter	TS9952E	
01/1956	TR3	First TR3 built in 1956		TS9666
05/1956	TR3	Changes on exhaust system: the tail pipe was replaced by a rear silencer		TS11717

Year		Car figures	Engine no.	Commission no. (chassis no.)
07/1956	TR3	A new Lucas DR2 single speed wiper motor now fitted to the LH side of the bulkhead under the bonnet. An optional Lucas DR3 two speed wiper motor could also be ordered		TS12568
08/1956	TR3	A new Girling braking system with front disc brakes and improved rear drums was fitted to all cars. Lockheed brake master, clutch master and clutch slave cylinder now replaced by Girling units. The rear axle was now being of the much more robust Triumph Vanguard type with uprated half shafts and hubs. Square shaped chassis plate was replaced by a rectangular shaped plate, new 4.5 x 15“ disc wheels		TS13046
09/1956	TR3	The so-called ‘high port‘ cylinder head with higher positioned inlet ports was fitted now to all cars. This modification increased the engine to 100 BPH output. Between engine no. TS12606E and TS13052E there was still a number of ‘low port‘ heads used before eventually the new ‘high port‘ head was fitted into the TR3. Please note: in this catalogue we use the official changing point, i.e. TS13052E. So please make sure, when ordering engine parts, to refer to ‘low port‘ or ‘high port‘ cylinder head whatever is applicable to your car	TS13052E	TS13052
01/1957	TR3	First TR3 built in 1957		TS14999
01/1957	TR3	Rear axle now with new wheel cylinder, identify by operating piston with slot		TS15332
01/1957	TR3	Now separate rear indicator lamps with amber lens (USA and Canada exports with red lens)		TS15601
05/1957	TR3	Oil sump now with tapered oil drain plug	TS18902E	
05/1957	TR3	Number plate lamp now without integrated stop light		TS18913
09/1957	TR3	End of production of the TR3		TS22013
09/1957	TR3A	Start of production of the Triumph TR3A. The obvious revisions for this models were a new full-width radiator grill with integrated indicator lamps, an altered front bumper, a new front shroud with new badge in red/black, chromed Triumph scripts across the front and the rear, lockable external door and boot handles, a new inner door lock mechanism with door pull cables, new design on front and rear seats, radiator now with air duct panel for better cooling		TS22014
01/1958	TR3A	First TR3A built in 1958		TS25633
02/1958	TR3A	Side screens now retained by Dzus fasteners		TS28826
06/1958	TR3A	New rear wheel cylinder with 0.625“ bore size		TS34403
01/1959	TR3A	First TR3A built in 1959		TS41668
01/1959	TR3A	Front badge now in blue/white		TS41874
04/1959	TR3A	A new ‘long type’ starter and a new flywheel with 90 teeth bolt-on ring rear replaced the ‘bomb type’ starter motor. The gearbox was now fitted with a oil filler plug instead of the prior used dipstick		TS50001
06/1959	TR3A	New upgraded Girling braking system using ‘Split-B‘ brake calipers, 9“ rear brake drums and rear wheel cylinders with 0.75“ bore size		TS56377

Production changes

Year		Car figures	Engine no.	Commission no. (chassis no.)
10/1959	TR3A	Several significant optical revisions: the bonnet and boot hinges now sat on a pressed plinth, the doors had rounded edges to their internal framing, bolts rather than the Dzus fasteners now fixed the windscreen frame, a new occasional rear seat was fitted, the rear floor area was redesigned and the spare wheel compartment was deeper. Further changes on the electrical system: wiring looms now with PVC tape for outer covering and Lucar connectors instead of screwed terminals		TS60001
01/1960	TR3A	First TR3A built in 1960		TS65124
01/1961	TR3A	First TR3A built in 1961		TS82030
07/1961	TR4	Start of the TR4 production with the following major changes: a complete new body, a larger 2138cc. (86mm bore) engine, a new heater with demister nozzles on the RH and LH side of the dashboard, a rack and pinion steering replaced the worm type steering box used on its TR predecessors and an all synchro gearbox was introduced. Suspension and chassis based on the TR3A		CT1
01/1962	TR3A	First TR3A built in 1962		TS82340
01/1962	TR3A	End of production for the TR3A		TS82347
01/1962	TR4	First TR4 built in 1962		CT2649
02/1962*	TR4	Girling 'B' brake calipers replaced by the new Girling '16P' type units, new brake discs with 10.13/16" diameter		CT4690 (with wire wheels), CT4388 (with disc wheels)
03/1962*	TR4	Chassis frame extension bracket deleted and 2inch longer intermediate body mountings added instead		CT5898
03/1962*	TR4	Redesigned front suspension with 3° castor which was only introduced with an improved top ball joint and necessitated the trunnions being handed to achieve the angling of the vertical posts to give the castor and also offset the upper wishbones		CT6344 (TR4 with wire wheels), CT6391 (TR4 with disc wheels)
03/1962*	TR4	Revised bonnet fitted with longer power bulge		CT6429
03/1962	TR3B	Introduction of theTR3B TSF series with 1991cc. (83mm bore) engine on the North American market. Based on the TR3A this models was fitted with the 4-synchro gearbox from the TR4 whereby some single models were still fitted with the 3-synchro gearbox from the TR3A		TSF1L
05/1962	TR3B	Introduction of the TR3B TCF series. This car was identical to TR3B TSF series but fitted with a larger 2138cc. (86mm bore) engine and using the TR4 braking system		TCF1L
06/1962*	TR4	New radiator with offset inlet, no filler neck extension and no crank hole		CT9553
07/1962*	TR4	Flat glass instruments replaced the domed glass instruments on LHD cars		CT11308
09/1962*	TR3B	End of production for the TR3B TSF series		TSF530L
10/1962*	TR4	Flat glass instruments replaced the domed glass instruments on RHD cars		CT15054
10/1962*	TR4	New front seats with vertical pleats		CT15273
11/1962*	TR4	Zenith Stromberg 175CD carburettors introduced on 100 models as test series	CT16801E	CT16801

Production changes

Year		Car figures	Engine no.	Commission no. (chassis no.)
11/1962*	TR4	SU-H6 carburettors now re-introduced	CT16900E	CT16900
12/1962	TR3B	End of production for the TR3B TCF series		TCF2804L
12/1962*	TR4	Lucas 25D4 type distributors replace on 86mm bore engines the Lucas DM2P4 units		CT17954
01/1963	TR4	First TR4 built in 1963		CT18605
02/1963*	TR4	Steering rack now with new inner pinion. Also the aluminium block mountings are replaced by rubber bushes		CT20064 (LHD), CT20266 (RHD)
03/1963*	TR4	New front seats in a completely new design with a tubular seat frame		CT20877
04/1963*	TR4	SU H6 carburettors now replaced by Zenith Stromberg 175CD carburettors on all models, also new inlet manifold. A modified cylinder head with valves with thinner stem diameter was now attached	CT21471E	CT21471
06/1963*	TR4	New deep dish rear springs introduced		CT23383
06/1963*	TR4	Engines now with closed circuit breathing	CT23594E	
01/1964	TR4	First TR4 built in 1964		CT28709
03/1964*	TR4	Longer front springs, but now fitted without aluminium distance piece		CT29984
10/1964	TR4	New overdrive with serial no. 22/61712		CT37000*
01/1965	TR4	First TR4 built in 1965		CT40193
01/1965	TR4	End of production for the TR4		CT40304
01/1965	TR4A	Introduction of the TR4A IRS. The major revisions for this models was the independent rear suspension with a new differential which was attached to the chassis and the drive reached the wheels by way of drive shafts with universal joints at each end. These revisions required a redesigned frame and a number of small changes and refinements on the front suspension. Apart from the suspension the electrical system were converted to negative earth. Further changes were: a new steering rack, a redesigned front bumper with slightly modified overrider, a new bonnet medallion, revised side light/indicator lamps now mounted on the front wings, a polished wooden dashboard, the handbrake moved to top of the transmission tunnel, a new radiator with closed circuit system, a new exhaust system with twin box rear silencer and twin exhaust manifold, a new diaphragm spring clutch with 23 teeth transmitted the power, new more comfortable front seats were fitted and a fully convertible hood was introduced		CTC50001
01/1965	TR4A	First TR4A with solid rear axle. Approximately 7.000 TR4A were prepared as LHD models for the North American market		CT50001
03/1965	TR4A	The Triumph TR4A IRS was presented to the audience at Geneva Motor Show		CTC50001
10/1965*	TR4A	Zenith Stromberg 175CD carburettors now replaced by SU-HS6 carburettors		CTC62191 (IRS models) resp. CT62191 (models with solid axle)
01/1966		First TR4A built in 1966		CTC63737 (IRS models) resp. CT63737 (models with solid axle)

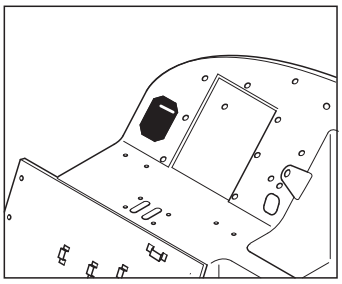
Production figures

Year		Car figures	Engine no.	Commission no. (chassis no.)
07/1966*	TR4A	New efficient exhaust system with cross box rear silencer was fitted		CTC70000* (IRS models) resp. CT70000* (models with solid axle)
01/1967	TR4A	First TR4A built in 1967		CTC75001 (IRS models) resp. CT75001 (models with solid axle)
07/1967	TR4A	End of production for the TR4A		CTC78687

*approximately

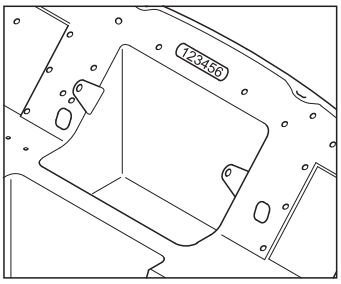
Model	Start of production	End of production	No. of cars built
TR2	August 1953	October 1955	8636
TR3	October 1955	September 1957	13377
TR3A	September 1957	January 1962	58309
TR3B	March 1962	September 1962	3334
TR4	July 1961	January 1965	40254
TR4A	March 1965	July 1967	28468
Total			152378

TR2, TR3, TR3A and TR3B



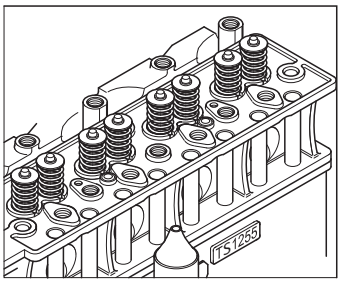
The chassis no. (commission no.)

is stamped on a plate fixed to the RH side of the bulkhead under the bonnet



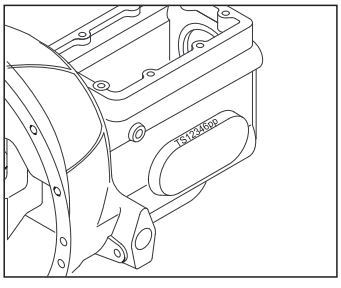
The body no.

is stamped on a plate fixed in the centre of the bulkhead under the bonnet



The engine no.

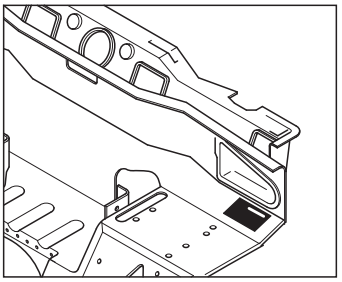
is stamped on LH side of cylinder block



The gearbox no.

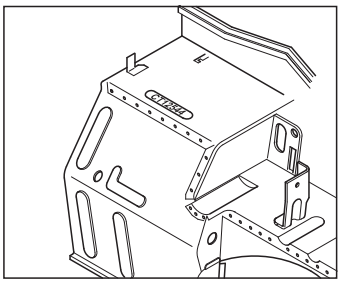
is stamped on LH side of gearbox on the upper all of the cast oval

TR4 and TR4A



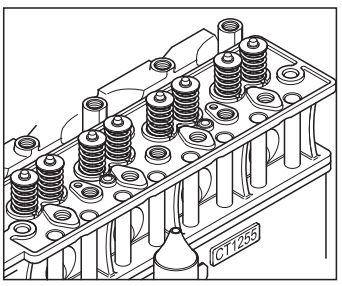
The chassis no. (commission no.)

is stamped on a plate fixed to the LH side of the scuttle panel under the bonnet



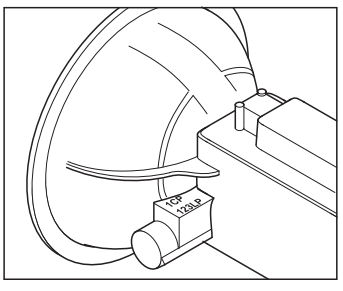
The body no.

is stamped on a plate fixed on the RH side of the scuttle panel



The engine no.

is stamped on LH side of cylinder block



The gearbox no.

is stamped on LH side of the clutch housing

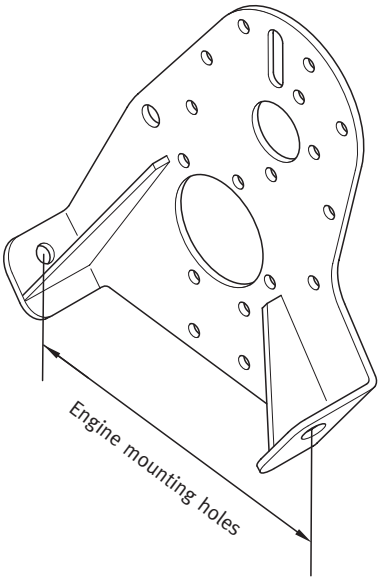
1 litre
Part no. 9916

400 ml aerosol
Part no. 15762

No	Part No	Description	Qty	Notes
1	**217864**	Engine with 83 mm bore size and ‚low port' cylinder head	1	TR2, TR3 to engine no. TS13051E. Identify by 13.3/8" space between engine mounting holes on front plate
1	**320246**	Engine with 86 mm bore size and ‚low port' cylinder head	1	
1	**450727**	Engine with 83 mm bore size and ‚high port' cylinder head.	1	TR3 from engine no. TS13052E, TR3A, TR3B. Identify by 13.3/8" space between engine mounting holes on front plate
1	**309546**	Engine with 86 mm bore size and ‚high port' cylinder head.	1	
1	**300260**	Engine with 87 mm bore size and ‚high port' cylinder head.	1	
1	**214239**	Engine with 86 mm bore size and ‚high port' cylinder head.	1	TR4, TR4A. Identify by 14.3/4" space between engine mounting holes on front plate
1	**478693**	Engine with 87 mm bore size and ‚high port' cylinder head.	1	



Tilt and lift engine hoist
easy adjustment of an engine's lift angle through a full 90° of movement. 1/2" square drive. Capacity 2000 pound.
Part no. 303036

Note: Engines - exchange

All our engines are developed for lead free applications. All engines are equipped with new pistons, piston pins, piston rings, main and big end bearings, small-end bushes, timing chain, gaskets, front oil seal and core plugs. Every cylinder head is inspected for cracks. Valve guides are measured for wear and either resized or renewed to conform to original tolerances. Valve seats are machined so as to retain the correct seat angles, widths, valve heights and valve seating concentric with the centre line of the valve guide bore. Valves are replaced. All valve springs are tested for squareness, free height and compressed load length. Cylinder heads are checked for distortion and thickness. When machining the cylinder head face, particular attention is paid to maintaining the correct surface finish specified by the gasket manufacturer. Camshafts are either replaced with a new unit or reprofiled to their original valve timing and lift specifications. Crankshafts are grinded and polished to produce the exact dimensions and surface finish required. Each cylinder block is rebored or resleeved and honed to give the precise surface finish and cross-hatch required. All main housings are measured for size, ovality, taper and weight-graded into engine sets. Every con rod is checked for alignment and weight-graded into engine sets. Oil pump: The clearance between rotor and body is measured. The oil pressure valve is dismantled and cleaned. All non-conforming parts are replaced. All our engines are hot run under their own power in purpose-built test cells. Every engine is subjected to a series of checks and the results are recorded against each specific engine serial number. On all our engines we grant with professional installation 6-month guarantee in accordance with our general terms of trade.

1	**14657**	Camshaft new item	1	For fast road camshafts see chapter 21.1
1	**216317**	Camshaft exchange	1	
2	**21150**	Camshaft bearing set	1	TR3 from engine no. TS8997E, TR3A to TR4A
3	**212193**	Plain washer camshaft bearing	3	
4	**355022**	Screw camshaft bearing	3	
5	**3878**	Timing chain duplex	1	
6	**3395**	Timing chain tensioner	1	
7	**15347**	Anchor bolt timing chain tensioner	1	
8	**20045**	Plain washer	0	Quantity as required
9	**3805**	Split pin	1	
10	**3416**	Sprocket camshaft	1	
11	**3343**	Bolt camshaft sprocket retaining	2	
12	**3845**	Lock tab camshaft sprocket	1	
13	**14658**	Camshaft bearing front, with housing assembly	1	
14	**3343**	Bolt camshaft retaining	2	
15	**289445**	Drive gear distributor	1	
16	**2784**	Pin distributor drive gear	1	
17	**8128**	Woodruff key	1	
18	**289159**	Drive shaft oil pump	1	
19	**1646**	Housing - new item made from cast iron	1	Distributor and tachometer drive
19	**337600**	Housing - new item made from aluminium	1	
19	**215035**	Housing - used item	1	
20	**4756**	Gasket	1	
21	**2828**	Nut	2	Distributor retaining
22	**212191**	Plain washer	2	
23	**212192**	Spring washer	2	
24	**19548**	Stud	2	
25	**300019**	Drive gear tachometer - new item	1	
25	**215036**	Drive gear tachometer - used item	1	
26	**19748**	Oil seal	1	
27	**14895**	Bronze bearing drive gear - new item	1	
27	**215037**	Bronze bearing drive gear - used item	1	
28	**371113**	Screwed sleeve on drive gear bearing - new item	1	
28	**215038**	Screwed sleeve on drive gear bearing - used item	1	
29	**15339**	Screw bearing locking	1	
30	**212194**	Spring washer	1	
31	**20714**	County Piston set with 83.0 mm bore size	1	With liners assembly
31	**6481**	County Piston set with 86.0 mm bore size	1	
31	**215341**	County Piston set with 87.0 mm bore size	1	
31	**318993**	County Piston set with 87.5 mm bore size	1	
32	**20830**	Mahle Piston set with 86.0 mm bore size	1	
32	**26225**	Mahle Piston set with 87.0 mm bore size	1	
33	**9839**	Piston set standard	1	4-ring piston, standard bore size: 3.267“, compression ratio: 8.5:1
33	**9840**	Piston set +0.020“	1	
33	**9841**	Piston set +0.030“	1	
33	**9835**	Piston set standard	1	3-ring piston, standard bore size: 3.386“, compression ratio: 9.0:1
33	**9836**	Piston set +0.020“	1	
33	**9837**	Piston set +0.030“	1

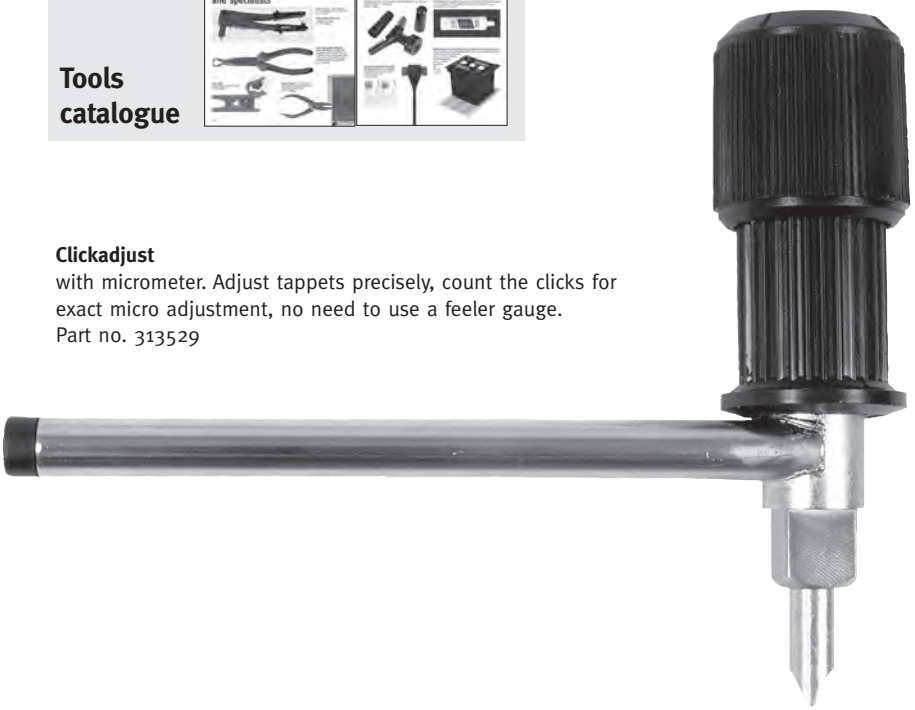
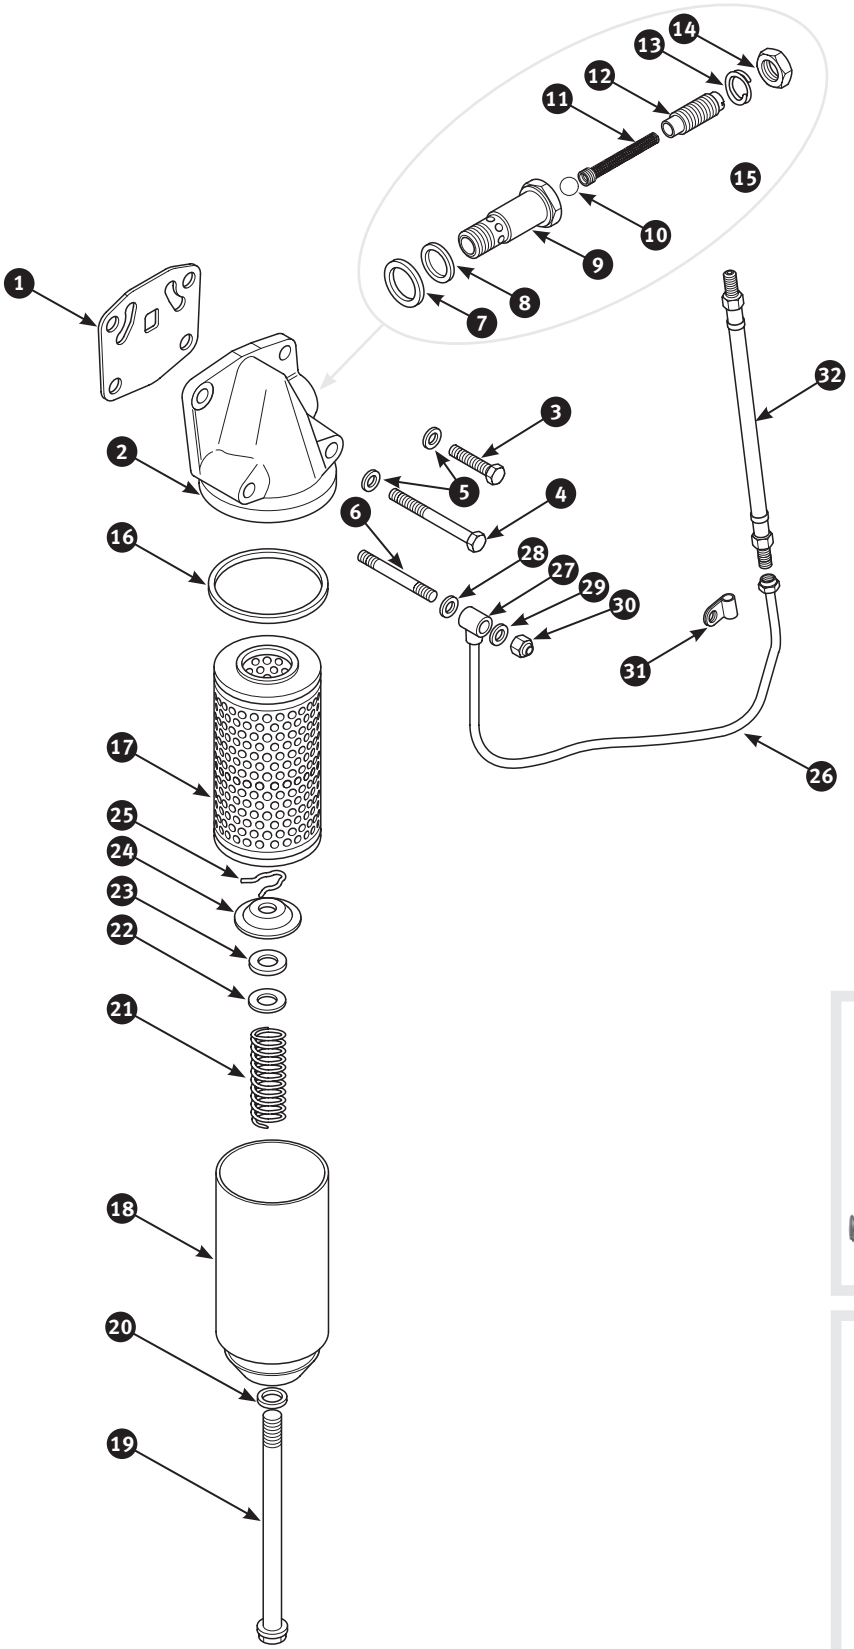
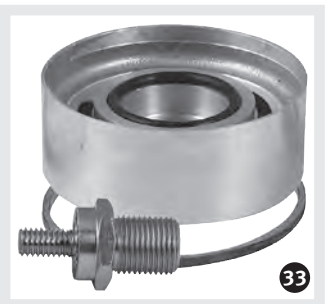
with micrometer. Adjust tappets precisely, count the clicks for exact micro adjustment, no need to use a feeler gauge.
Part no. 313529



TR2, TR3 to engine no. TS9951E





No	Part No	Description	Qty	Notes
1	**2366**	Gasket oil filter head to cylinder block	1	
2	**362070**	Oil filter head Purolator - ‚bypass' type	1	
3	**212167**	Screw oil filter head - upper fixing	2	
4	**212033**	Bolt oil filter head - lower rear fixing	1	
5	**212194**	Spring washer oil filter head	3	
6	**5096**	Stud oil filter head - lower front fixing and banjo fitting	1	
7	**20876**	Sealing ring	1	
8	**10575**	Washer	1	
9	**327483**	Body oil pressure valve	1	
10	**11304**	Steel ball oil pressure valve	1	
11	**11258**	Spring oil pressure valve	1	
12	**3438**	Adjusting screw oil pressure valve	1	
13	**3310**	Lead linger adjusting screw sealing	1	} Supplied per metre
14	**255006**	Nut	1	
15	**464086**	Oil pressure valve assembly	1	
16	**8421**	Sealing ring oil filter bowl to filter head	1	
17	**1008**	Oil filter element - paper	1	} Alternatives
17	**290806**	Oil filter element - micro filter	1	
18	**327100**	Oil filter bowl used item	1	
19	**256064**	Bolt oil filter bowl to filter head	1	
20	**3139**	Rubber washer	1	
21	**203351**	Compression spring	1	
22	**255155**	Rubber washer	1	
23	**9253**	Rubber seal	1	
24	**20444**	Pressure plate	1	
25	**8921**	Circlip	1	
26	**10836**	Oil pipe including banjo - oil filter head to oil hose	1	
27	**10837**	Banjo union pipe to oil filter head	1	
28	**12064**	Copper washer oil pipe to oil filter head - inner	1	
29	**13407**	Copper washer oil pipe to oil filter head - outer	1	
30	**349279**	Dome nut oil pipe to filter head	1	
31	**255750**	Clip oil pipe to block	1	} Fixed at fuel pump stud
32	**2343**	Oil hose oil pipe to bulkhead - stainless steel braided	1	
33	**25212**	Oil filter adaptor	1	} For spin on conversion
34	**18198**	Oil filter	1	

For Thriumph

FilterMAG standard 481133
FilterMAG high performance 481135

FilterMAG's
powerfull rare-earth magnets trap and hold wear-inducing metal particles smaller than 40 microns down to 1 micron that the filter cannot stop. It extends oil life and reduces maintenance costs. Easy fitting while magnetic force „snaps" FilterMAG to the filter canister. FilterMAG has a lifetime warranty.

TR3 from engine no. TS9952E, all TR4

16	**20837**	Bracket	1	TR4 variants with torque reaction arm
17	**4763**	Rubber buffer	1	
18	**212194**	Spring washer	1	
19	**2303**	Nut	1	

Axle stands
3,6 ton (1800 kg each), height adjustable from 255 to 370 mm, solid stand, foldable
Part no. 312445

Digital exhaust CO analyser with pulse pump
Professional edition with digital display for CO level, voltage, rpm, dwell, a collector-box with pulse pump, metal exhaust probe with retaining springs, 3 flexible pipes. Requires just DC 12 Volt and can be simply run off a regular car battery. The pulse pump just uses the pressure built up within the exhaust system, there actually isn't a moving part that could wear out or needs to be cleaned. Water gets separated in the built-in water trap. It is accurate to 0.5 % CO measurement and can be easily calibrated in air.

Laser-Tachometer
digital gauge with Laser RPM pick up. With 5 digit LCD-display and a measuring range from 2.5 up to 99,999 RPM, Accuracy: +- 0.05%+1 RPM. The built in memory saves min. and max. RPM and the last measured value. With this special meter all rotating parts can be checked. Great diagnostic tool for gearbox, final drive and many other applications on automotive service and repair
Part no. 221361

Penrite Mild EP gear oil
an extreme pressure automotive gear oil meeting the requirements of API GL4 for moderate load applications. Mild EP is designed for use in all steel gear sets in Vintage and Classic cars as well as rack and pinion steering boxes of the 1950's and 1960's vehicles. It is suitable for use in spiral bevel, worm and pre 1960 hypoid axles. Also suitable for use in many gearboxes where a mild level of extreme prxssure protection is required. Benefits: protects against wear, good anti-friction characteristics, compatible with copper aooly components and protects against corrosion, can be used where either SAE90 or SAE140 grades are recommended. Penrite Mild EP gear oil meets the performance requirements of API GL-4 and MIL-L-2105. Please find further oils in chapter 21.26
1 litre bottle

Spanner
for oil filter plug on ‚A' type overdrive
Part no. 19182

Drain plug key
The wrench has nine various sizes which will fit most cars. An excellent tool for the removal of female drain plugs from axles and engine sumps.
Part no. 311658

Multi purpose oil LOS40
eliminate scuff marks from tile floors, remove water spots and mildew on mirrors and windows, clean dirt marks and crayon from walls and floors, lubricate sticky cabinets and drawers, stop squeaks on door hinges and furniture. 400 ml aerosol
Part no. 294716

Oil drain pan
16l volume, height: 14 cm, integrated funnel, large handles, acid resistant, antisplash-system, very practical for a convenient and clean oil change
Part no. 293584

Digital infrared thermometer
with built-in laser pointer for exact measurement. Temperature range from -20 to + 520°C or -4 to 968°F. Accuracy: +/-2°C or 2% of the reading. Response time: 500 mSec. Resolution: 0.2°. Now with an easy-to-use pistol design and illuminated display. Suitable for a lot of tasks around the car and workshop, 9V batterie included.
Check the temperature of the engine, muffler, tires and brakes.
Which cylinder is getting hot?
A fast detection of faulty components can save time and prevent expensive repairs and severe damage.

Fuel pressure regulator
85 mm specification, glass body. The ideal way to control the flow and pressure of the fuel delivered to the carburettor. Pressure range from 1.5 PSI up to 5 PSI.
Part no. 15395
spare filter: 327900

Fertan fuel tank sealant ‚Tapox‘
2-part epoxy fuel tank sealing,
Tapox is the best preventive and remedial measure as spezial 2-part interior coating, which is designed specifically to be resistant to fuel and provide a corrosion free tank from steel and aluminium . Tapox is useful at bikes, cars, trucks, boats, lawnmovers, etc and is useful too as final coat for metal. After 72 hours at ca. 20° C and an humidity less 70 % the product create a strong film, resistant against fuel and extremly strong against mechanical abrasion. 500 g.

27	**469268**	Fuel pipe	1	} Cars fitted with fuel tap - may replace fuel pipes 20696 and 20697 (ill.'s 1 and 3)
27	**324318**	Fuel pipe kit	1	} Cars without fuel tap

Fertan primer ‚Ferpox'
1-part epoxy primer.
Quickly drying single-component epoxy ester for metal surfaces as very abrasionproof and heat-resistant coating for surfaces subject to wear and tear.
Use in construction of machinery and if besides mechanical resistance temperatur resistance up to + 250° C is also demand.
Useful too for restauration of car bodys, boats and many more applications.
Part no. 16798

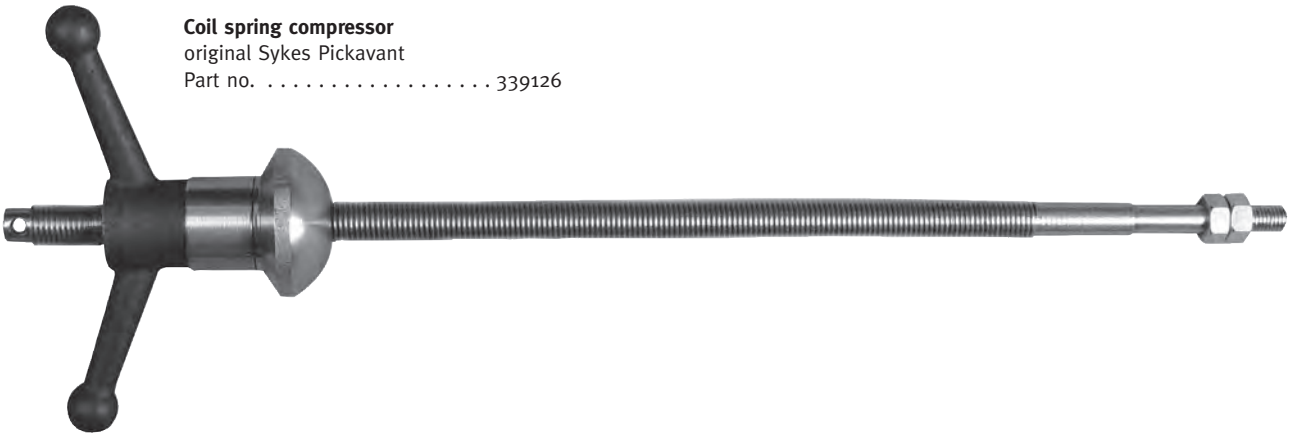
53	**9555**	Suspension link trunnion RH and LH - 0° castor	2	TR2 to TR3B, TR4 with wire wheels to CT6343, TR4 with disc wheels to CT6390
53	**1783**	Suspension link trunnion RH - 3° castor.	1	TR4 with wire wheels from CT6344, TR4 with disc wheels from CT6391
53	**1784**	Suspension link trunnion LH - 3° castor.	1	
54	**2057**	Stop steering lock	2	
55	**212194**	Spring washer	2	
56	**7893**	Screw steering lock stop	2	
57	**201060**	Plain washer trunnion to wishbone	4	TR2 to TR3B, TR4 to CT7218
58	**201061**	Sealing ring trunnion to wishbone.	8	
59	**1285**	Thrust washer trunnion to wishbone	8	
60	**201046**	Bush trunnion to wishbone	4	
61	**15586**	Washer trunnion to wishbone	4	TR4 from CT7219
62	**15588**	Shim trunnion to wishbone	16	
63	**201061**	Sealing ring trunnion to wishbone - outer	4	
64	**20788**	Sealing ring trunnion to wishbone - inner	4	
65	**1285**	Thrust washer trunnion to wishbone	8	
66	**201046**	Bush trunnion to wishbone	4	
67	**13163**	Anti roll bar - 9/16“	1	Factory option for TR4
68	**17170**	Anti roll bar link	2	
69	**17169**	Bracket anti roll bar link to chassis frame	2	
70	**212196**	Plain washer	2	
71	**2869**	Nut	2	
72	**17167**	Locating washer	2	
73	**17166**	Mounting strap anti roll bar bush	2	
74	**17165**	Rubber bush anti roll bar	2	
75	**17164**	Bracket anti roll bar - LH	1	
75	**17163**	Bracket anti roll bar - RH	1	
76	**7455**	Nyloc nut mounting strap to anti roll bar	4	
77	**213887**	Screw bracket to bumper bracket	4	
78	**2829**	Nyloc nut	4	
79	**6158**	Fitting kit anti roll bar	1	



Coil spring compressor
original Sykes Pickavant

10	**2340**	Bush ball joint	2	
11	**325502**	Ball joint original style	2	TR4 with wire wheels from CT6344, TR4 with disc wheels from CT6391
11	**1059**	Ball joint replacement	2	
12	**5469**	Grease nipple ball joint	2	
13	**215138**	Locking ring	2	
14	**201003**	Gaiter ball joint	2	
15	**10483**	Plain washer	2	
16	**3784**	Nyloc nut	2	
17	**300633**	Steering lever RH.	1	TR2 to TR3B
17	**300632**	Steering lever LH	1	
17	**300666**	Steering lever RH.	1	TR4 with wire wheels to CT6343, TR4 with disc wheels to CT6390
17	**300667**	Steering lever LH	1	
17	**300673**	Steering lever RH.	1	TR4 with wire wheels from CT6344 to CT16462, TR4 with disc wheels from CT6390 to CT16349
17	**300674**	Steering lever LH	1	
17	**300681**	Steering lever RH.	1	TR4 with wire wheels from CT16463, TR4 with disc wheels from CT16350
17	**300680**	Steering lever LH	1	
18	**2829**	Nyloc nut steering lever	4	
19	**5082**	Distance tube steering lever	4	
20	**336908**	Vertical link original style	2	
20	**303501**	Vertical link for negative camber	2	
21	**294084**	Seal vertical link to trunnion - original type	2	
21	**9727**	Seal vertical link to trunnion - improved type	2	
22	**9781**	Stub axle	2	
23	**212113**	Nyloc nut stub axle to vertical link	2	
24	**10483**	Plain washer stub axle to vertical link	2	
25	**213745**	Backing plate RH brake caliper	1	TR3 from TS13046, TR3A, TR3B, TR4 with wire wheels to CT4689, TR4 with disc wheels to CT4389
25	**300655**	Backing plate LH brake caliper	1	
25	**2392**	Backing plate RH brake caliper	1	TR4 with wire wheels from CT4690, TR4 with disc wheels CT4388
25	**2393**	Backing plate LH brake caliper	1	
26	**213886**	Screw caliper to backing plate - length: 3/4“	2	TR3 from TS13046, TR3A, TR3B and TR4
26	**9849**	Bolt caliper to backing plate - length: 1.3/8“	2	
27	**1026**	Oil seal wheel bearing	2	
28	**1016**	Wheel bearing inner.	2	
29	**1015**	Wheel bearing outer	2	
30	**16537**	Wheel bearing kit	2	Contains ill.‘s 27, 28 and 29

Exhaust jointing compound
this paste has excellent lubrication properties and provides carbon monoxide roof joints on all exhaust systems, from manifold to tail pipe. Withstand extreme temperatures up to 1150°C. 100 g tube.
Part no. 304320

Exhaust pipe cutter
for clean and easy cutting of up to 2 mm thick pipes, diameterrange from 35 to 64 mm
Part no. 464591

Spreader
for exhaust pipes. Enables the smooth widening of pipes and makes the installation and the making of exhaust system a lot easier. Eight segments are pushed apart by the internal cone that can be driven with your regular tools.

29 - 44 mm
Part no. 218998

38 - 64 mm
Part no. 241776

54 - 87 mm
Part no. 245511

Spreader set
supplied in a set of 3 different sizes for expanding exhaust pipes. Diameter: 29 mm - 87 mm
Part no. 291767

Limited slip differential
A direct replacement for the standard differential, the limited slip differential transforms your car‘s performance. Unlike a conventional plate-style limited slip differential, this differential relies on gears rather than clutch plates for its operation. That means it is much smoother in operation. This differential type never locks harshly with a set pre-load of wheel slip across the driven axle, like a conventional LSD. Rather, the differential automatically biases the torque away from the spinning wheel across the axle, to a constantly varying degree, and never locks.

saves grease joints, renovates King Pins.
Quality 1144 steel construction with extension. Lifetime warranty.
Part no. 245095

LRZ 2 Grease
LZR 2 longlife greases are new greases for roller and friction bearings, that are made from high quality basic oils by using lithium soaps as thickening agents. It shows an extraordinary oxidation resistance. LZR 2 greases are water resistant, adhesive, can be loaded with pressure and is protective against corrosion. These properties, in connection with high work resistance, very good abrasion rating and particularly strong adhesiveness, characterise this lubricant as particularly appropriate for lubrication under difficult operating conditions and at highly loaded roller and friction bearings. Practical advantages: LZR 2 can be used universally as long-term greases. They are recommended for lubrication of vehicles, industrial machinery and for all machines and devices in the field of construction, stone and earth. Temperature range: -30° to +120°C
400g cartridge for use with universal grease guns
Part no. 7682

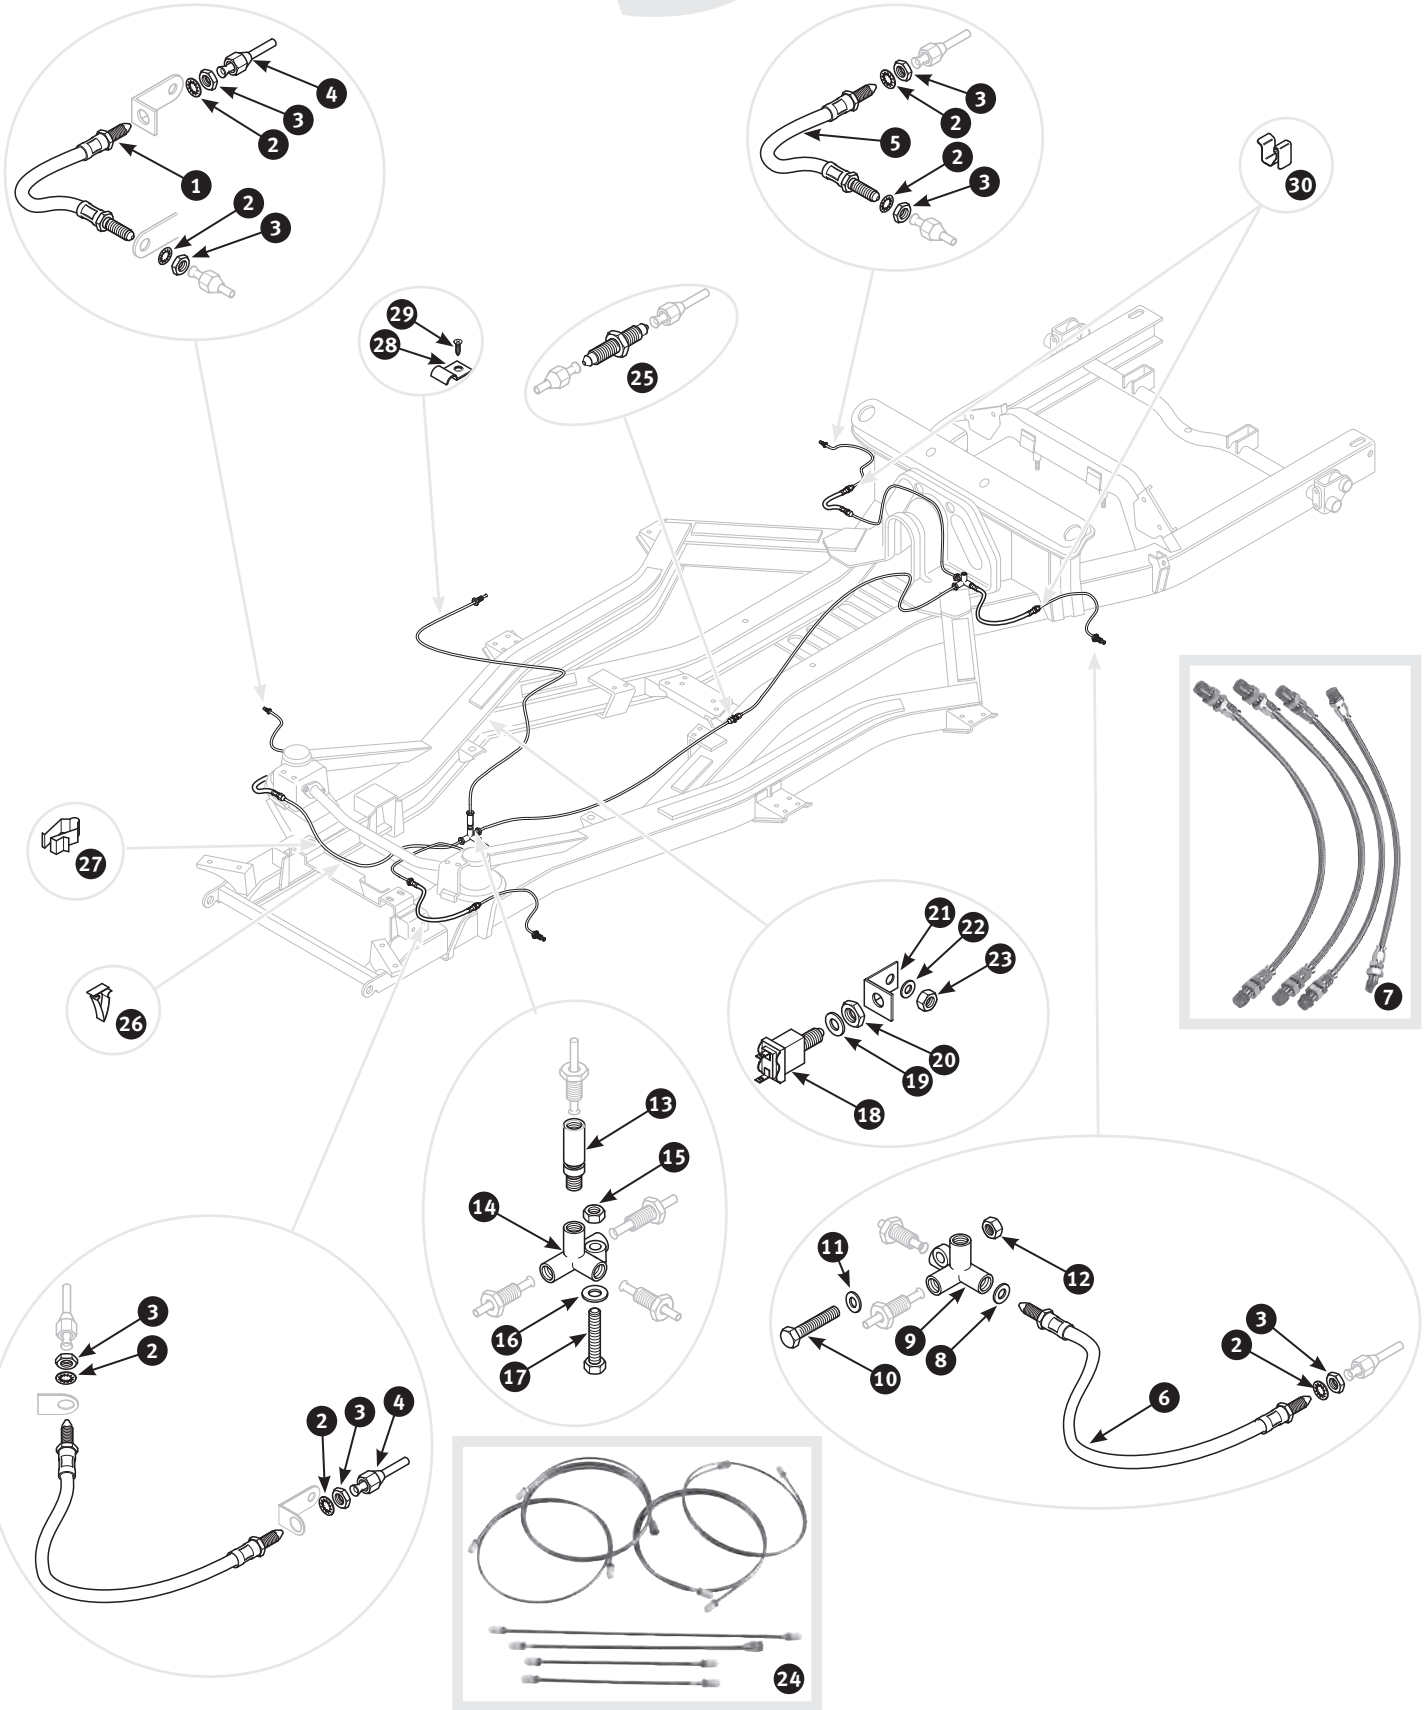
22	**215077**	Brake pipe set - RHD	1	

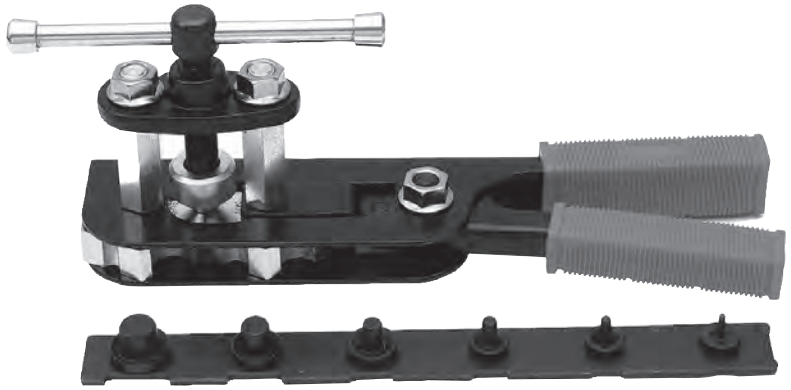
‚A-Fin' Brake drum
made of aluminium alloy with bonded iron inserts and circumferential fins. These brake drums improve heat dissipation, add to the braking capacity of your car and also reduces the fading.
Two needed per car.
TR3A from TS56377, TR3B, TR4 and TR4A (cars with 9" brakes)
Part no. 3288

Cars fitted with Girling system and indepent rear axle



No	Part No	Description	Qty	Notes
1	**11827**	Brake hose front	2	
2	**209117**	Shakeproof washer	7	
3	**7741**	Nut brake hose to bracket	7	
4	**10358**	Brake pipe front - brake hose to caliper.	2	
5	**11823**	Brake hose LH rear	1	
6	**11822**	Brake hose RH rear	1	
7	**343272**	Brake hoses aeroquip type, set with 4 lines	1	
8	**12064**	Copper washer	1	
9	**202384**	3 way brake union rear	1	
10	**315904**	Bolt	1	
11	**212191**	Plain washer	1	
12	**212451**	Nyloc nut	1	
13	**200431**	Foot valve brake union	1	Use only, when brake master cylinder has no check valve fitted
14	**11465**	4 way brake union	1	
15	**212451**	Nyloc nut	1	
16	**212191**	Plain washer	1	
17	**6514**	Bolt brake union to chassis	1	
18	**2395**	Brake light switch mechanical	1	Fixed at pedal box
19	**3813**	Shakeproof washer	1	
20	**3201**	Nut	1	
21	**9594**	Bracket brake light switch	1	
22	**3813**	Shakeproof washer	1	
23	**3201**	Nut	1	
24	**26119**	Brake pipe set LHD	1	
24	**12553**	Brake pipe set RHD	1	
25	**202318**	Inline connector brake pipe	1	
26	**3423**	Retaining clip brake pipe to chassis	6	
27	**293620**	Clip brake pipe to RH chassis rail	1	
28	**8694**	Retaining clip brake pipe to bulkhead	1	
29	**20031**	Self tapping screw	1	
30	**293468**	Retaining clip brake pipe to trailing arm	2	

Flaring tool
for copper, brass and thin walled aluminium tubing, flares pipes from 3/16 to 5/8“ diameter, makes male, female & double flares
Part no. 311132



Cars fitted with Girling system and solid rear axle

Elora Socket set (imperial)
with 1/2“ square drive, 24 pieces.

Contents:
- 18 bi-hexagon socket, 3/8“ to 1.1/4“ AF
- 1 „Elotech“ reversible ratchet
- 2 extension bars, 125 mm and 250 mm
- 1 sliding tee bar
- 1 universal joint
- 1 speed brace

Part no. 304157

Elora Socket set (metric)
with 1/2“ square drive, 24 pieces.

Contents:
- 18 bi-hexagon socket, 10 to 32 mm
- 1 „Elotech“ reversible ratchet
- 2 extension bars, 125 mm and 250 mm
- 1 sliding tee bar
- 1 universal joint
- 1 speed brace

Part no. 208529

Elora Socket set (Withworth)
with 3/4“ square drive, 17 pieces.

Contents:
- 11 bi-hexagon socket, 1/8“ to 11/16“ Withworth
- 1 „Elotech“ reversible ratchet
- 2 extension bars, 125 mm and 250 mm
- 1 sliding tee bar
- 1 universal joint
- 1 speed brace

37	**21062**	Connector vacuum hose - 90° angled	1	Cars with Zenith Stromberg 175CD carburettors
38	**9312**	Rubber cover for distributor with side entry	1	
39	**485462**	123 Ignition system top entry type	1	For 4 cylinder models with Lucas distributors, negative earth and electric tachometer
39	**295886**	123 Ignition system side entry type	1	

That‘s not a distributor!

- **Less emissions**
- **Better starting**
- **Maintenance-free**
- **Simple installation**
- **Variable dwell-angle**
- **Lower fuel consumption**
- **Attractive "original" look**
- **Stronger spark at all speeds**
- **Smooth engine torque curve**
- **Easy timing: with built-in LED**
- **Spark balancing: less noise & more power**
- **16 user selectable electronic advance curves**
- **Available for 4, 6, 8 and 12 cylinder engines**

Buy a 123 ignition now! Enjoy todays standards of reliability and performance. Join the rapidly growing group of trouble-free classic car owners. 123ignition distributors are available for many engines!
Introducing the ”123 ignition”
The ignition-system in a classic car is often the source of many problems. After years of use, the mechanical distributor becomes worn and increasingly inaccurate.
Although replacement of the standard points with an optical eye or magnetic ignition set-up is an improvement, it does not compensate for the wear in the advance-mechanism, the distributor shaft and bearings within the distributor itself.
The 123 ignition distributor is different. It comes in its own aluminium billet and nickel plated housing, although externally similar in its classic appearance to its mechanical counterpart, it contains high-tech electro nics on the inside. While maintaining classic appearances under the bonnet, the internal technology makes your ignitionsystem and engine perform better than ever before.
The 123 ignition is only available for negative earth cars.

Exclusive from us: for 8 cylinder Rover engines

123 Ignition system
side entry type
For 4 cylinder models with Lucas distributors, negative earth and electric tachometer

2	**201042**	Harness overdrive switch to main wiring loom	1	TR4 and TR4A fitted with overdrive
3	**2388**	Harness overdrive switch to relay	1	
4	**300312**	Cable brake light switch to main wiring loom	1	TR4 LHD from CT27000
4	**20975**	Cable side light to main loom - colour: red	0	Quantity as required
4	**20976**	Cable indicator to main loom - colour: green	0	
4	**20977**	Cable lamp unit to chassis earth - colour: black	0	
4	**21085**	Cable horn to main loom	0	
5	**20978**	PVC sleeve for wires - inner diameter: 8 mm, length: 1 metre	0	
6	**20477**	Harness in steering column - for control head	1	TR2, TR3, TR3A and TR3B
7	**16161**	Cable solenoid to starter motor	1	
8	**11616**	Earth cable engine to body	1	
9	**17942**	Earth cable steering rack to chassis	1	TR4 and TR4A
9	**1672**	Earth cable flexible coupling on steering column	2	

Pliers
to connect bullet type terminals

The smartest battery charger on the planet! Fully automatic high tech charger.

High frequency charger with multistage charging and peak control. Batteries can be charged while they are connected to the car without the danger of harming electric components. Pulse load keeps the battery always at 100% of its cranking capacity. Can be left connected permanently. The smartest charger we could find, fully automatic Swedish High-Tec charger.
Safety class IP65 (moisture protected and dust sealed).

C Tek Battery charger
Multi XS 3600 - for 12 volt batteries up to 120 AH, charging current: 0.8/3.6 A

19	**19359**	Jaeger Oil pressure gauge exchange - serial no. X.80516/2 OG103 or PL2561/00, range in lbs/square inch.	1	TR4 RHD to CT15053, TR4 LHD to CT11307
19	**11280**	Jaeger Oil pressure gauge exchange - serial no. X.80516/3 OG103 or PL2561/01, range in Kg/qcm	1	
19	**21399**	Jaeger Oil pressure gauge exchange: serial no. PL2302/22 - range in lbs/square inch	1	TR4 RHD from CT15054, TR4 LHD from CT11308, all TR4A
19	**21391**	Jaeger Oil pressure gauge exchange: serial no. PL2302/23 - range in Kg/qcm	1	
20	**2343**	Oil hose between oil pipe and oil filter head	1	TR4
21	**21405**	Oil pipe between gauge and oil hose	1	
22	**9699**	Oil feed pipe between oil gauge and oil filter head - nylon	1	TR4A - may replace original oil pipe and hose on TR4 models
23	**22735**	Grommet oil pipe through bulkhead	1	
24	**5458**	Leather washer	1	
25	**20031**	Self tapping screw	2	
26	**3424**	Retaining clip oil pipe to bulkhead	2	
27	**21395**	Jaeger Temperature gauge exchange - serial no. BT2300/00, range: 110-250 F°	1	TR4 RHD to CT15053, TR4 LHD to CT11307
27	**21396**	Jaeger Temperature gauge exchange - serial no. BT2300/01, range: 30-100 C°	1	
27	**21400**	Jaeger Temperature gauge exchange - serial no. BT2203/00, range: 110-250 F°	1	TR4 RHD from CT15054, TR4 LHD from CT11308, TR4A to CTC62636
27	**20684**	Jaeger Temperature gauge exchange - serial no. BT2203/01, range: 30-100 C°	1	
27	**21403**	Jaeger Temperature gauge exchange - serial no. BT2203/03, range: C-N-H	1	TR4A from CTC62637
28	**2216**	Thermal transmitter for temperature gauge	1	
29	**287264**	Bulb holder - auxiliary gauges illumination	4	
30	**2877**	Bulb - auxiliary gauges illumination	4	
31	**8512**	Knurled nut - retaining auxiliary gauges	8	
32	**319079**	Shakeproof washer	8	
33	**15244**	Instrument glass domed - for auxiliary gauges	4	TR4 RHD to CT15053, TR4 LHD to CT11307
33	**21083**	Instrument glass flat - for auxiliary gauges	4	TR4 RHD from CT15054, TR4 LHD from CT11308, all TR4A
34	**8517**	‚O' ring for auxiliary gauges	4	
35	**311670**	Chrome rim for auxiliary gauges	4	
36	**3014**	Voltage stabilizer for fuel and temperature gauge	1	
37	**3824**	Spire nut	1	
38	**3819**	Self tapping screw voltage stabiliser to bulkhead	1	

Hazard warning kit
12 V, for positive and negative earthed cars, complete with fitting instructions.
Part no. 287383

Scratch remover for paint finishes/car paint finishes
Unattractive scratches in the paintwork of cars are unavoidable over time. QUIXX Repair System removes scratches, small marks and scuff marks quickly and reliably from all paint finishes (including metallic). Two different special polishes can be used to eliminate both slight and deep scratches. Simply apply the paste and polish. Through the superior action of QUIXX the paint finish shines with a new lustre. This offers an added bonus in maintaining the value of your car, motorcycle, caravan or boat, etc. You'll be amazed!
8-piece set comprising two tubes scratch remover, two polishing cloths, and four strips of special sandpaper.

Scratch remover
„Quixx Repair System" for car paint.
Contains: 1 tube Quixx Polish Nr.1 - 25g, 1 tube Quixx Finish Nr. 2 - 25g, 2 polishing cloth, 4 special sanding papers
Part no. 226691

Shrinking tube

DUOFLUX consists of a heat-shrinkable polymeric sleeve containing two solder rings with an incorporated flux and two thermoplastic sealing rings. DUOFLUX has been developed especially for making electrical connections, which require high quality, reliability, long life span and water tightness. DUOFLUX is very easy to install, the quality of the connection can be visually checked and it requires no special tools. DUOFLUX comes in four sizes, coded by the international colour code system, and suitable for the most frequent cable diameters. DUOFLUX can be applied on both twisted (flexible) and solid (rigid) conductors, suitable for copper as well as tinned wires, whether combined or not.

Shrinking tube - ‚Duoflux‘

clear - 0.2 to 0.7 sq. mm
Part no. 395314

red - 0.7 to 1.5 sq. mm
Part no. 487277

blue - 1.5 to 2.5 sq. mm
Part no. 487278

yellow - 3.0 to 6.0 sq. mm
Part no. 487279

Circuit testing lamp
brass plated
Part no. 479867

nickel plated
Part no. 479868

Multimeter
digital multimeter with a rotary switch for selection of the 24 different functions and ranges. Suitable for the measurement of DC volts and amps, resistance, dwell, rpm on 4, 6, 8 and 12-cylinder engines. The testing of diodes is also supported. The shock resistant housing is made of rubber. Supplied with 2 sets of cables: one pair with crocodile clamps and one pair with probes. A 9 V block battery and vinyl storage bag is included

Primer
Quickly drying single-component epoxy ester for metal surfaces as very abrasionproof and heat-resistant coating for surfaces subject to wear and tear. Use in construction of machinery and if besides mechanical resistance temperatur resistance up to + 250° C is also demand. Useful too for restauration of car bodys, boats and many more applications.
1 part-epoxy-primer, 1 kg can
Part no.. 16798

Mike Sanders Body cavity grease
Provides cavity protection and under-sealing for blank, corroded and painted surfaces. This is the only product (according to independent tests) that provides long term seam penetration and also protects better than its competitors. It is suited to all types of vehicles, vintage and classic, new and used of all ages. It does not have to be applied by a garage, it can be applied by a 'do-it-yourself' enthusiast with the right equipment. This is 100% product i.e. it contains no solvents which results in no lasting odours in the vehicle and therefore safe for the occupants. Mike Sanders Anti-corrosion-grease has been tested by several independant German car magazines. It is the best rust prevention grease on the market.

Fertan NT10 cavity and rust protection
based on the latest nano-technology. NT10 cavity protection material has in comparison with existing materials enormous advantages. The protective layer produced is glossy when dry and resistant to pollutants. Damp, dirt, water and substances dissolved in it (e.g. salt) cannot adhere to the water-repellent surface, and therefore the development of new rust and corrosion is prevented before it can begin. NT10 is permanently resistant and damage from mechanical impacts can simply be repaired. Contains: 625ml cavity protection, 125 ml hardener, 200 ml concentrated metal cleaner and a 0.05 mm bore jet for cavity spray guns.
Part no. 246265

Swissvax Nano Express
advanced quick refinisher set.
Content: 250 ml pump spray, applicator and a special microfibre cloth.
Part no. 436948

Swissvax Nano Express is the only product that removes pollutions, fine scratches, dust and fingerprints on all varnishes, rims, synthetic materials, aluminium and chrome within one operation. Modern and primarily ‚real', extremely fine sprayed Nano-technology causes a brilliant gleam without any smearing film. Simply spray, apply with the pad and wipe off with Swissvax MicroAbsorb towel. The application works approx. one month. This is also not reached by any comparable competing product.

Luster Lace polish strips are designed to work on all round and tubular metal surfaces. The polish is in the cloth of the strips, no other utilities are needed to get the perfect finish. Luster Lace is fast and easy to use with 360° polishing power that can´t be beat. So now you can save up to 70% of your work time. Luster Lace comes in three convenient sizes (narrow, medium, wide) for the care of parts of all sizes.

- Luster Lace Narrow - for wire wheels and filigree parts
- Luster Lace Medium - for headlamp rims, tubular manifolds etc.
- Luster Lace Wide - for large diameters like silencers
- Luster Lace Combo - complete assortment, for all parts

Luster Lace Polishing strips
‚combo'. Content: 4 strips 1/2" wide, 3 strips 3/4" wide and 2 strips 1.1/4" wide
Part no. 485440

Note: Hood materials and specifications:

A: **Heavy duty vinyl** - a popular grade material specifically formulated to reproduce the texture and appearance of the vynil hoods on most British sports cars. The typical life expectancy for this material is over 5 years. Available in black only. B: **Everflex Vinyl** - used as Original Equipment by most British sports car Manufacturers. Our Everflex hoods and tonneaus are considered to be the best choice for those seeking to retain that „original factory appearance". The typical life expectancy for this material is over 10 years. Various colours available. C: **Double duck** - a 20 oz canvas hooding fitted as standard to many classic cars. This material is popular as a direct replacement to a vinyl hood, offering improved insulation properties in comparision to vinyl hoods. Available in black only. D: **Mohair** - a superior quality canvas material considered to be the finest car hooding material available and used as original equipment by many of the worlds luxury car manufacturers. We have seen 20 plus years old examples of hoods made from this fabric that still look as good as new. Mohair does not require any special treatments and is available in various colours.

Autoglym Car Interior Shampoo
A carefully balanced blend of surface active ingredients and deodorising agents „deep clean" quickly and safely. This easy to use spray and wipe formula removes stains and grime from synthetic fabric upholstery, carpets, roof linings, vinyls, leather and plastics. Ideal for use as a general cleaner in caravans, boats, trucks and many other situations. 500 ml.
Part no. 310440

For details please look at the last page of this catalogue.

Note: Hood materials and specifications:

A: **Heavy duty vinyl** - a popular grade material specifically formulated to reproduce the texture and appearance of the vynil hoods on most British sports cars. The typical life expectancy for this material is over 5 years. Available in black only. B: **Everflex Vinyl** - used as Original Equipment by most British sports car Manufacturers. Our Everflex hoods and tonneaus are considered to be the best choice for those seeking to retain that „original factory appearance“. The typical life expectancy for this material is over 10 years. Various colours available. C: **Double duck** - a 20 oz canvas hooding fitted as standard to many classic cars. This material is popular as a direct replacement to a vinyl hood, offering improved insulation properties in comparision to vinyl hoods. Available in black only. D: **Mohair** - a superior quality canvas material considered to be the finest car hooding material available and used as original equipment by many of the worlds luxury car manufacturers. We have seen 20 plus years old examples of hoods made from this fabric that still look as good as new. Mohair does not require any special treatments and is available in various colours.

Sewing awl
supplied in a 5 piece set. Contents: 1 sewing awl with a nice wooden handle, 2 spare needles and 180 yards of extra thread. The special saddler tool for leather and thick materials. The Sewing Awl sews a lock stitch just like a machine and is the perfect device for sewing heavy leather, vinyl or cloth. Also works great for upholstery and auto tops, vinyl and leather repairs. Made in USA.
Part no. 369532

1 **10832** Oil sump aluminium.
Features: external bracing and integral top oil splash plate

1 **478587** Oil sump magnesium.
Features: external bracing, integral top oil splash plate and aditional anti-surge baffle plates

no ill. **478586** Fitting kit for alloy and magnesium oil sumps

2 **324537** Oil pump uprated,
for maximum oil delivery to update any engine

3 Kent Camshafts - new items

302899 280°
power band: 2200 to 7000 rpm,
valve timing: 37/63 and 73/27, 280°/280°,
cam lift: 0.293“

302902 290°
power band: 3000 to 7500 rpm,
valve timing: 42/68 and 78/32, 290°/290°,
cam lift: 0.309“

342026 300°
power band: 3750 to 8000 rpm,
valve timing: 47/73 and 83/37, 300°/300°,
cam lift: 0.324“

4 **14656** Crankshaft forged from EN40B steel,
nitride and cross drilled. Ready ground to suit our rear oil seal

5 Forged aluminium pistons
for road, competition and full race engines. Supplied complete with piston rings and gudeon pins. We recommend to use our Composite cylinder head gasket.

327466 3-ring circlip piston, bore size: 87 mm

6 Mahle Piston sets
with liners assembly
20830 86.0 mm bore size
26225 87.0 mm bore size

7 **324539** Con rod forged steel
‚H' beam type, complete with bolts

8 **293174** ARP Stud kit for standard con rods.
Made of high grade 8740 chrome moly steel and heat treated to a nominal tensile strength of 200,000 psi. Threads are rolled after heat treat to ensure optimum fatigue strength. They are fully capable of handling the extra stress of high combustion pressure engines

9 **204624** Pulley crankshaft, made from alloy.
For 3/8" fan belt conversions.

10 **26343** Oil seal conversion kit, crankshaft rear.
Please note: crankshaft flange needs some modification. Please find single components for individual conversion below

no ill. **315241** Oil seal separately,
for oil seal conversion kit 26343 (ill. 9)

11 **337600** Housing distributor and tachometer drive,
made from aluminium

12 **12868** Cam follower, fully heat treated steel version.
Height: 50mm, weight: 71g. Recommendable for all fast road and race engines

13 **363161** Cam follower, lightweight and fully heat treated steel version.
Height: 39mm, weight: 53g. Recommendable for all fast road and race engines

14 **12126** Push rod competiton type with unfinished length.
Tubular pushrod for standard cam followers. Made from 4130 Chrome Moly steel for extra strength and resistance to bending at high rpm. These have the bottom ball of the pushrod fitted, and the top cup unfitted. This allows you cut to length to accommodate skimmed cylinder heads,decked blocks,different valve heights etc and achieve optimum rocker angles. The top cup presses in- and will not come out.

1 Cylinder heads made from cast iron
suitable for lead free applications

18087 Cylinder head - exchange
‚Low port' type complete with valves springs
TR2, TR3 to engine no. TS13051

210207 Cylinder head - exchange
‚High port' type complete with valves and springs
TR3 from engine no. TS13052, TR3A to TR4A

212628 Cylinder head - new item
‚High port' type without valves, valve guides and valve seat inserts
TR3 from engine no. TS13052, TR3A to TR4A

2 Cylinder heads made from aluminium
These replacement cylinder heads are made from cast LM25 aluminium alloy with a specially designed figure of eight valve seat integrally cast in. These inserts are made of a special stainless steel alloy to enable them to use unleaded fuel. This material has the same coefficient of expansion as LM25 aluminium and hence there is no possibility of the seat coming loose. As well as the obviously better heat dissipation of aluminium, it's use of allows a higher compression ratio to be used than would be possible with cast iron (approximately 0.5 of a ratio for the same type of fuel). There is also a weight saving, thus improving the weight distribution and therefore the handling characteristics of the car. Specifications: fully machined, balanced and polished combustion chambers with bronze valve guides and lead free valve seats.

328185 Cylinder head - new item
‚High port' type complete with valves, valve guides and valve springs
TR3 from engine no. TS13052, TR3A to TR4A

2 **319160** Cylinder head - new item
‚High port' type with valve guides and valve seats
TR3 from engine no. TS13052, TR3A to TR4A

3 Composite cylinder head gaskets
The genuine cylinder head gasket for the classic Triumph 4 cylinder engine were originally just made of plain copper and known for corrosion and other problems. We can offer a composite head gasket of the latest design, using the most advanced manufacturing techniques. With our new gasket made from high quality composite material you have the following benefit:

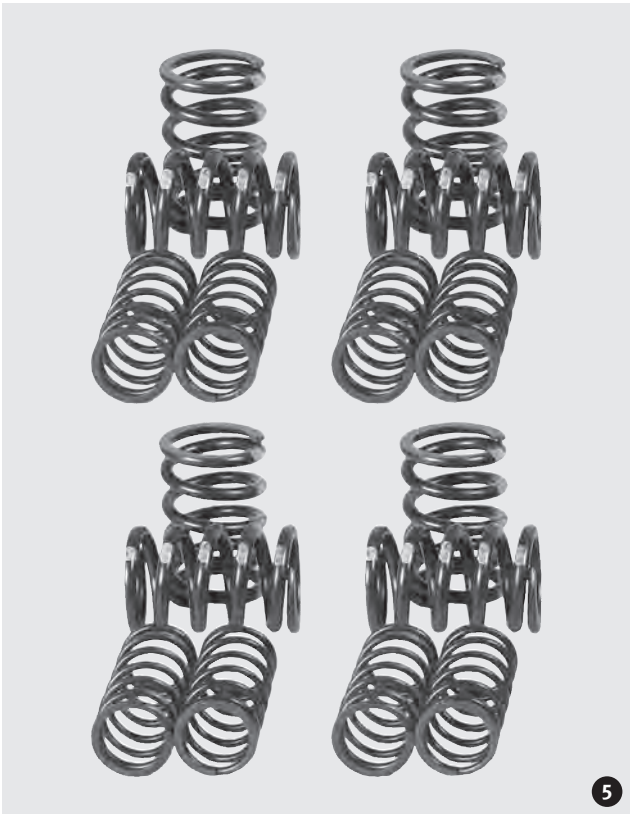
- stronger support for oil and water galleries
- bigger bore sizes possible
- higher compression possible
- improved design for reliability

320514 Bore size: 83 to 86 mm
thickness: 0.60", built-in thickness: 0.57"

336961 Bore size: 83 to 86 mm
thickness: 0.35", built-in thickness: 0.33" (for full race engines)

10579 Bore size: 87 mm
thickness: 0.60", built-in thickness: 0.57"

4 **362049** ARP Studs and nuts - cylinder head
high grade 8470 chrome moly with a tensile strength of 190.000 psi ensure substantial strength and reduces stretching



5 Valve springs

1097 Complete car set with triple exhaust and double inlet valve springs
TR2 to TR3A, TR4 to engine no. CT21470

6 Bronze valve guides for lead free applications

304999 Sterm diameter 3/8“
TR2 to TR3A, TR4 to engine no. CT21470

13135 Sterm diameter 5/16“
TR4 from engine no. CT21471, TR4A

318593 Sterm diameter 5/16“ and 17/32“ outer diameter. Allows to run ‚late‘ valves in ‚early‘ heads
TR2 to TR3A, TR4 to engine no. CT21470

1098 Complete car set with double exhaust and inlet valve springs
TR4 from engine no. CT21471, TR4A

7 **12871** Valve spring cap - aluminium, for double inlet and exhaust valve springs
TR4 from engine no. CT21471, TR4A

8 Gas flowed stainless steel valves with 5/16“ stem diameter TR4 from engine no. CT21471, TR4A. The fitting in conjunction with our valve guides 318593 (ill. 5) allows to run these ‚late‘ valves in ‚early‘ heads

12602 Inlet valve
head diameter: 1.655“

9 Gas flowed stainless steel valves with 5/16“ stem diameter TR4 from engine no. CT21471, TR4A. The fitting in conjunction with our valve guides 318593 (ill. 5) allows to run these ‚late‘ valves in ‚early‘ heads

12605 Exhaust valve
head diameter: 1.437“

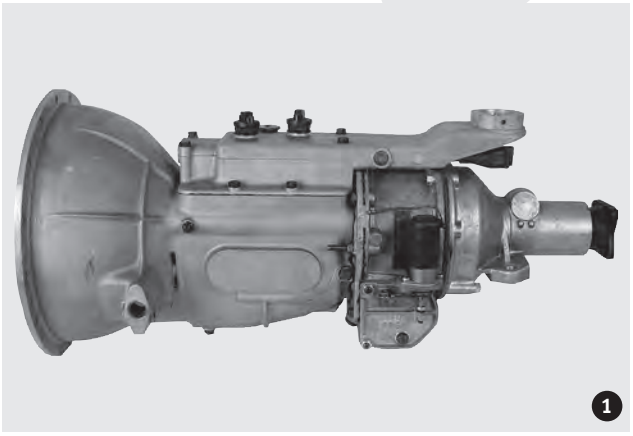
10	**13573**	Oil feed pipe for external rocker shaft lubrication
11	**324532**	Pedestal - made from aluminium, supplied in sets of 4
12	**13050**	Rocker shaft - tuftride
13	**13051**	Spacer set for rocker shaft made from high quality steel
14	**327463**	Rocker kit roller tip type with needle bearings, valve lift: 1.5:1 If high ratio rocker kits will be fitted always check valve clearance to block and pistons, may be additional machining is required. also check the lift capabilities of the valve springs for coil binding. Alternativly fitting of a cam with lower valve lift is required. Please note: must be used with aluminium rocker cover
15	**4014**	Rocker cover - polished aluminium, non vented. Comes with oil filler cap TR2 to TR4
16	**4015**	Rocker cover - polished aluminium, vented. Comes with oil filler cap TR4A

Please find single components for individual rocker cover conversion below

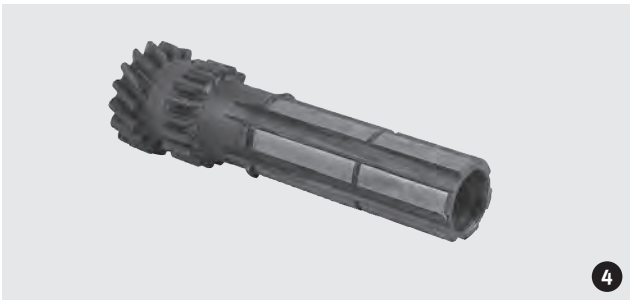
no ill.	**15742**	Oil filler cap - separately
no ill.	**203987**	Stud for alloy rocker cover
no ill.	**974**	Rocker cover gasket



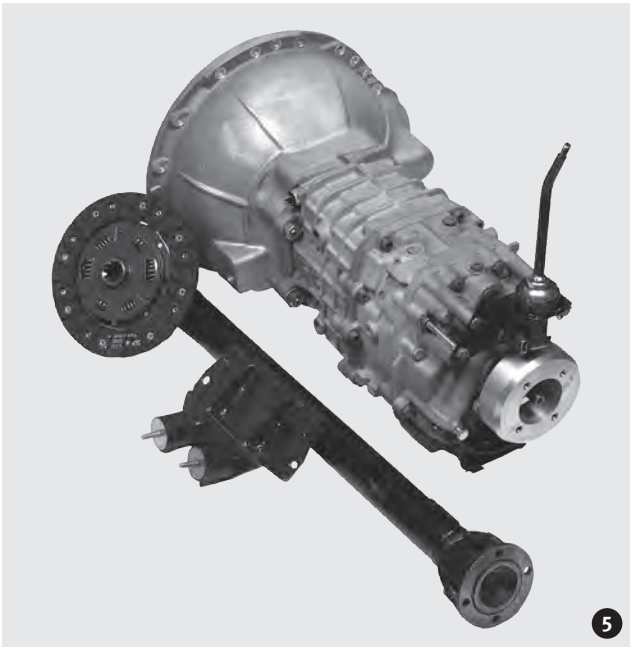
1 Gearbox with ‚A' type overdrive, reconditioned, outright
485394 3 synchro box. Main characteristics: clutch housing adapts early ‚Bomb' type starter motor TR2 and TR3, TR3A to TS50000
485395 3 synchro box. Main characteristics: clutch housing adapts late ‚Long' type starter motor TR3A from TS50001
485396 4 synchro box. Main characteristics: clutch housing adapts late ‚Long' type starter motor TR3B, TR4 and TR4A

2 **336340** Angle drive - speedometer cable to overdrive perfect uprated quality TR4A

3 **17855** Accumulator piston competition type with two uprated springs and a larger piston TR4A IRS fitted with overdrive unit 22/61753
no ill. **355745** Spring for accumulator piston 17855 supplied in pairs TR4A IRS fitted with overdrive unit 22/61753



4 Lay gear for 4 synchro gearbox uprated type with pre-fitted bearings TR3B, TR4 and TR4A
342119 Variant with 17 teeth
337474 Variant with 16 teeth

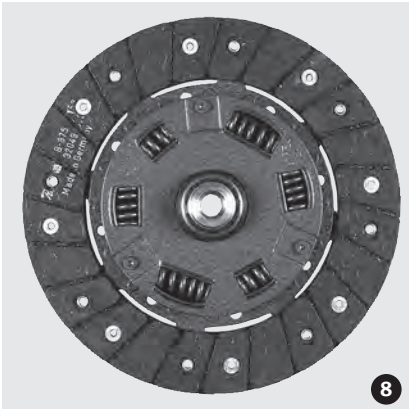


5 **325726** Getrag 5-speed gearbox
complete kit ready to bolt on
This kit comprising a special bellhousing, clutch plate, release roller bearing, spigot bush for crankshaft, gear stick, special speedo drive to use with the genuine speedo cable, special bracket to mount gearbox at original crossmember and an exchange propshaft. This conversion kit is built to adapt the original release fork and clutch shaft.

Please find single components for individual Getrag conversion below

6 **327668** Propshaft - exchange

7 **328991** Clutch release bearing



8 **329767** Clutch plate

9 **290203** Castrol Gearbox oil EP90 - 1 litre bottle

1 Flywheel
Our aluminium flywheels are made of the highest quality 6061 T6 aluminium. The material is fantastic for strength, heat dissipation and of course reduction in weight. The friction surface we use is an incredibly strong 1045 steel. The plates are milled to meet our high specifications. The flywheel can mate with any type of clutch material, including organic, kevlar, ceramic, metallic and sintered iron. We attach the replaceable friction surface with military grade aerospace fasteners. With these replaceable plates there is no need to replace the entire flywheel when the clutch or flywheel is at the end of its life, saving time and money. The ring gears we use are also made from 1050 steel and are heat treated for durability. The gears are heated then pressed on and secured with grade 8 button screws. We were the first to utilize a stepped dowel system in most of our flywheel applications. This doweling method ensures that once the pressure plate is installed the dowels cannot be removed because they become locked into place. No steel flywheel can compete with the awesome serviceability, strength and superior design of our aluminium flywheels. If there was a better material out there, we would be using it.

343487 Ligtened aluminium type, with ring gear assembly.
Weight: 10kg
TR3A from engine no. TS50001, TR3B, TR4 and TR4A

Uprated clutch - ‚road' type with 8.5" diameter
Please note: these single clutch items must used in sets TR2 to TR4.

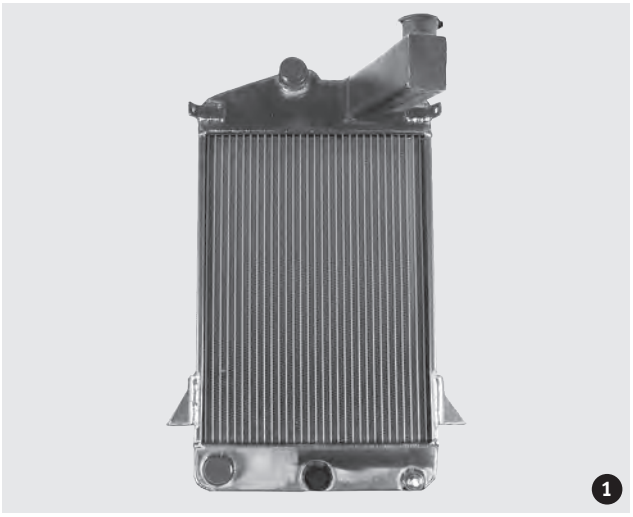
2 **13140** Clutch cover
3 **1100** Clutch plate with 10 splines
4 **328991** Clutch release bearing - reinforced roller type complete with sleeve

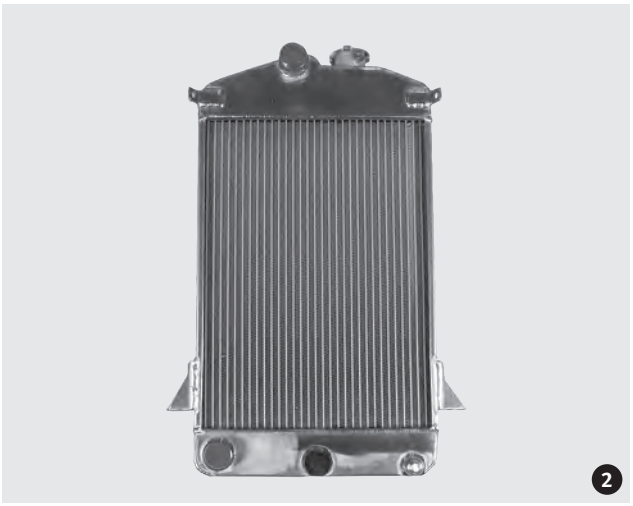
Uprated clutch - ‚road' type with 8.5" diameter
TR4A

2 **13140** Clutch cover
3 **13141** Clutch plate with 23 splines
4 **328991** Clutch release bearing - reinforced roller type complete with sleeve

5 Alignment tool for clutch
16275 Variant with 10 splines - TR2 to TR4
25700 Variant with 23 splines - TR4A

6 Clutch hoses - aeroquip type
13278 TR2, TR3 to TS13045
14409 TR3 from TS13046, TR3A, TR3B and TR4
14292 TR4A





1 **327489** Aluminium radiator, high performance type
characteristic: offset inlet, long filler neck extension but no crank hole
TR2, TR3, TR3A and TR3B, TR4 to CT9552

2 **327490** Aluminium radiator, high performance type
characteristic: offset inlet, no filler neck extension and no crank hole
TR4 from CT9553

3 **327491** Aluminium radiator, high performance type
TR4A

4 **25778** Water pipe between water pump and radiator
made from stainless steel. Comes with hole to adapt thermo switch for electric fan control

5 Thermo switch
fits to stainless steel water pipe 25778 (ill. 4). Please note: choice of thermo switch should be matched to your thermostat. Do not tempted to use one which cuts in at too late temperature. Please remember there is approx. 7° C drop through the radiator.

313475 82°C on / 68°C off - use with 74°C thermostat
313365 86°C on / 76°C off - use with 74° or 82°C thermostat
311660 86°C on / 81°C off - use with 82°C thermostat
313240 88°C on / 79°C off - use with 82° or 88°C thermostat
311661 92°C on / 87°C off - use with 88°C thermostat

6 Kenlowe Electric fan
fitted between grille and radiator. These fans are classed as secondary cooling and will probably prove to be adequate, but may be used with genuine fan.
Technical data: Single fan, diameter 255 mm, installation depth: 46 mm, air flow rate: 1210 m3/h
TR2 to TR4A
290010 Without thermostatic switch
15197 With thermostatic switch

7 Kenlowe Electric fan
fitted between radiator and engine. This fan is recommended as a primary cooling source and requires removal of the original fan and fan extension.
Technical data: Single fan, diameter 320 mm, installation depth: 66 mm, air flow rate: 3126 m3/h
TR2 to TR4A
301248 With thermostatic switch

Please find single Kenlowe components for individual conversion below

8 **202250** Kenlowe Thermostatic switch with sender

no ill. **12193** Kenlowe Gasket for thermostatic switch sender 202250 (ill. 8)

9 **4734** Kenlowe Thermo fan switch kit
complete with warning light and fitting kit

10 Conversion kit to narrow fan belt

15523 Variant without crankshaft balancer
containing 3 pulleys and 1 fan belt. This conversion runs with the original fan, an electric fan is not necessary

479632 Variant with crankshaft balancer
containing 3 pulleys and 1 fan belt. This conversion runs only with an electric fan. The original fan has to be replaced

no ill. **17791** Replacement fan belt for narrow fan belt conversions 15523 and 479632

11 **324529** Water pump housing - made from aluminium
weight only 0.9 kg

12 **471110** Water pump - made from aluminium
this lightweight version is a direct replacement for the existing pump but with re-designed impeller to give higher volumes of flow. The improved flow and increased water pressure ensures that all parts of the cooling system receive adequate distribution of water. This pump comes without pulley and is recommended to be fitted in conjunction with our narrow fan belt conversion kit 15523 (ill. 10).
Weight only 0.7 kg

13

14

15

16

13 Redline Water Wetter super coolant
doubles the wetting ability of water. Improves heat transfer. Reduces cylinder head temperature. Reduces rust, corrosion and electrolysis. Cleans and lubricantes water pump seals can be used with all antifreeze/coolants. Improves the ability of coolant to wet heat transfer surfaces by 50%. This provides significantly better coolant contact in the cylinder head and can reduce coolant and head temperature by as much as 65°F. Can be used with 100% water in racing but does not protect magnesium or alter freezing point.
303509 355 ml bottle

14 **305787** Bars flush
cleans and conditions the cooling system
100 g bottle

15 **22884** Penrite Rust-preventive for the cooling system
1 litre bottle

16 Anti-freeze coolant for radiator
this anti-freeze coolant provides all-year-round protection for your engine against frost, rust and over-heating. Also suitable for alloy engines.
373200 1 litre bottle
314878 1.5 litre bottle
315178 5 litre canister

1 Oil cooler with 1/2“ unions
Our oil coolers are designed to provide the means by which oils of varying viscosities may be cooled by a flow of air at ambient temperature. Any vehicle using higher rpm than envisaged by the manufacturer needs an oil cooler. The oil cooling requirement of an engine increases threefold for every 1000 rpm increase. Oil, when heated, starts to lose film strength, i.e. the ability to keep metallic surfaces from touching, when the film strength is insufficient to withstand the load, seizure and bearing failure take place. Following sizes are available.

9483 10 rows, sizes: 33 x 8 x 5.5 cm
6341 13 rows, sizes: 33 x 10 x 5.5 cm
300147 16 rows, sizes: 33 x 13 x 5.5 cm
307372 19 rows, sizes: 33 x 15 x 5.5 cm

2 Oil cooler fitting kit, for use with the original filter head
TR2, TR3, TR3A, TR3B and TR4 (identify by square adaptor plate)

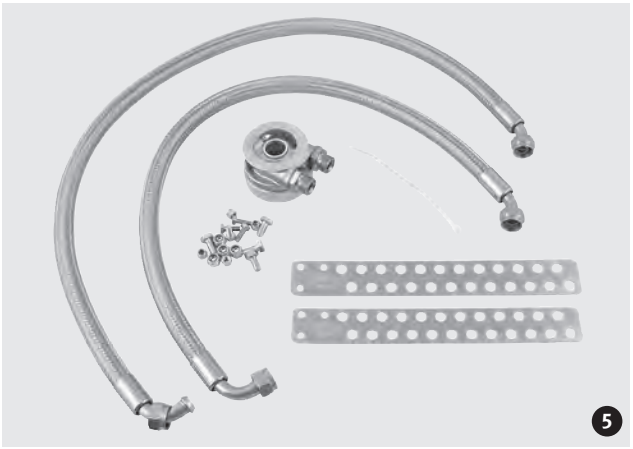
327412 With rubber hoses and all needed fittings
13584 With steel braided hoses and all needed fittings

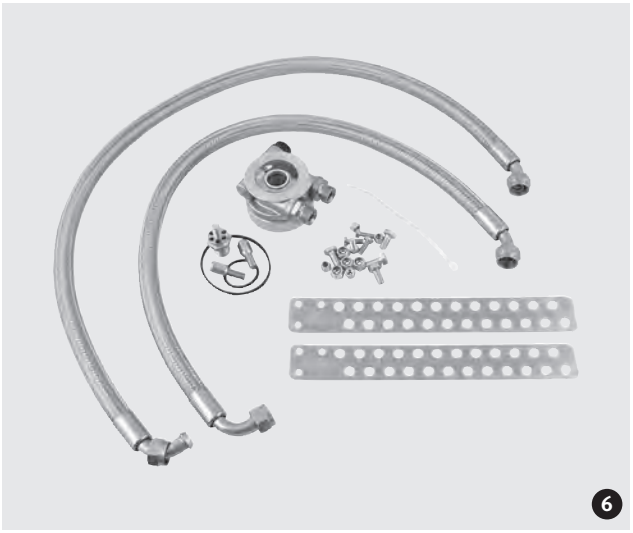
3 Oil cooler fitting kit, for use with the original filter head
TR4A (identify by round adaptor plate)

12205 With rubber hoses and all needed fittings
13587 With steel braided hoses and all needed fittings

4 Oil cooler fitting kit, for use with the original filter head. Thermostatic controlled
TR2 to TR4A

13588 With rubber hoses and all needed fittings
14382 With steel braided hoses and all needed fittings





5 Oil cooler fitting kit, comes with adaptor for spin on conversion
TR2 to TR4A
319659 With rubber hoses and all needed fittings
319656 With steel braided hoses and all needed fittings

6 Oil cooler fitting kit, comes with adaptor for spin on conversion. Thermostatic controlled
TR2 to TR4A
319660 With rubber hoses and all needed fittings
319655 With steel braided hoses and all needed fittings

7 **18198** Oil filter for spin on conversions (ill.'s 5 and 6)

8 FilterMAG
FilterMAG's powerful rare-earth magnets trap and hold wear-inducing metal particles smaller than 40 microns down to 1 micron that the filter cannot stop. It extends oil life and reduces maintenance costs. Easy fitting while magnetic force „snaps" FilterMAG to the filter canister. FilterMAG has a lifetime warranty.
481133 Standard type
for oil filters from 2.90" to 3.40" diameter, height 2.0"
481135 High performance type
for oil filters from 2.90" to 3.40" diameter, height 2.625"

9 **14275** Oil stat with 1/2" unions

10 **13441** Oil stat with push on fittings

1

2

3

4

5

1 **300847** Fuel tank - aluminium
Identify by outlet in bottom centre. Needs modification of fuel lines when fitted to TR3A from TS60001 onwards
TR2, TR3, TR3A and TR3B

2 **19261** Fuel tank - aluminium
Needs modification on boot floor when fitted to TR4 models
TR4 and TR4A

3 **14976** Mitsuba Fuel pump - the one and only!
Dual polarity. Minimum flow approx. 90 litre per hour. Fuel pressure 0.3 bar. Dimensions: 20 x 6 cm.
Mitsuba is one of the leading Japanese manufacturer of electronic fuel pumps. Mitsuba pumps are frequently used in rally and race vehicles. In our opinion, the definitely best and most reliable fuel pump. Suitable for all carburettor engines.

no ill. **212850** Replacement filter for Mitsuba for fuel pump 14976

4 Facet Fuel pump -complete with fitting kit
12 volts interruptor type
15353 Minimum flow rate: 81 litre per hour
fuel pressure: 0,27 to 0.31 bar
304847 Minimum flow rate: 121 litre per hour
fuel pressure: 0.34 to 0.41 bar
12287 Minimum flow rate: 159 litre per hour
fuel pressure: 0.41 bis 0.55 bar

5 **8609** Blanking plate for fuel pump hole in cylinder block. You will need this blanking plate when you are replacing the mechanical pump with a high pressure electric unit

no ill. **8602** Gasket for blanking plate 8609

6

7

8

9

6 Filter King Fuel pressure regulator
The ideal way to control the flow and pressure of the fuel delivered to the carburettor
343001 67 mm specification with glass body
15395 85 mm specification with glass body
no ill. **355497** Replacement filter for 67 mm fuel regulator 343001
no ill. **327900** Replacement filter for 85 mm fuel regulator 15395

7 **315876** Fuel filter - chrome plated
for 5/16“ fuel hose

8 **316736** Press cap
for (5/16“) fuel hose

9 **316733** Fuel hose - 5/16“
braided with zinc plated wire, supplied per metre

1 Power has a new name: Weber.
If you are looking for a simple and effective bolt-on performance part, you won´t get around these. Weber carburettors provide more power, more torque, better response and a beautiful sound. Please note: Genuine Weber carburettors are cast with the WEBER logo and are stamped „Made in Spain“.
Complete kit comprising two carburettors, inlet manifolds, linkage and all fittings
TR3 from TS9350, TR3A, TR3B, TR4, TR4A
338681 With Weber 40 DCOE carburettors
320961 With Weber 45 DCOE carburettors

Please find single Weber components for individual conversion below

no ill. **20393** Weber Carburettor - 40 DCOE type
fitted with standard jets

no ill. **204940** Weber Carburettor - 45 DCOE type
fitted with standard jets

no ill. **487085** Throttle linkage
for twin Weber DCOE carburettors. Can be used with the standard rod operated linkage

no ill. **16979** Inlet manifold
for twin Weber DCOE carburettor conversion, 120 mm deep. Designed for LHD cars, but can also be fitted to all RHD vehicles. Supplied in pairs

no ill. **12981** Seal plate
Weber DCOE carburettor to inlet manifold

2 **17047** Fuel hose kit for twin Weber DCOE carburettors
aeroquip type

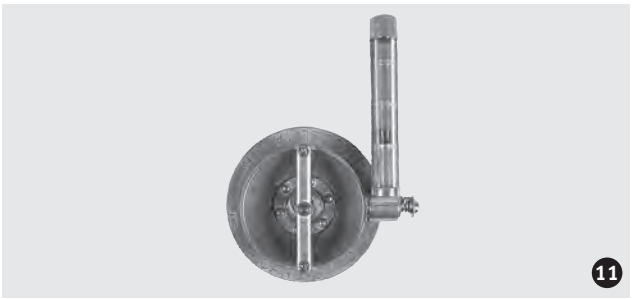
3 Rebuilt kit - Weber carburettor
336204 40 DCOE type
204941 45 DCOE type

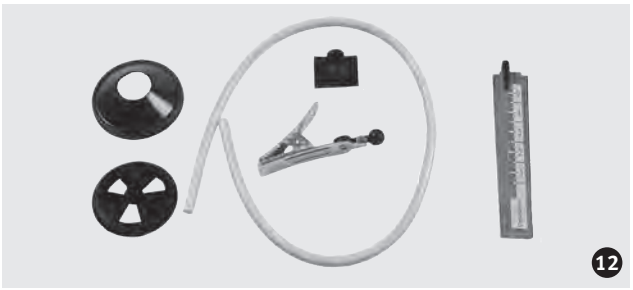
4 **17935** SU Carburettors - HS6 type
new items to fit standard inlet manifold. Replacement for Zenith Stromberg carburettors, ready to bold on TR4A

no ill. **487435** Throttle and choke linkage
for SU-HS6 conversion

5 **212128** Carburettor damper oil
for post 1950 vehicles with SU and Zenith Stromberg carburettors. 125 ml bottle

6 **316230** SU Carburettor cleaner
500 ml aerosol





7 Hand reamer for 5/16“ throttle spindles
323998 With standard size. Lengths: 115 mm
23031 With 0.010“ oversize. Lengths: 235 mm

8 Grose jet - superior replacement of needle valve and seat
19687 For SU carburettors
19686 For Zenith Stromberg carburettors

9 **20661** Tool kit for SU carburettors
three-piece including jet linkage spanner

10 **19067** Adjusting tool
for idle mixture screw on Zenith Stromberg carburettors

11 **19729** Carburettor balancer
for SU and Zenith Stromberg carburettors - alloy die cast type

12 **25749** Gunson‘s Carburettor balancer
for SU and Zenith Stromberg carburettors - plastic type

13 **343265** Gunson‘s Gas tester
digital exhaust CO analyser with pulse pump

1 SU Air filter
- **215270** For SU-H4 carburettors round, centre type, 45 mm deep, chromed TR2
- **215269** For SU-H6 and SU-HS6 carburettors round, centre type, 45 mm deep, chromed TR3, TR3A, TR3B, TR4 und TR4A

2 Speedograph Air filter
- **2705** For SU-H4 carburettors round, offset type, 25 mm deep, chromed TR2
- **2708** For SU-H6, SU-HS6 and Zenith Stromberg 175 CD carburettors round, centre type, 25 mm deep, chromed TR3, TR3A, TR3B, TR4 und TR4A

3 Speedograph Air filter
- **14254** For Weber 40 DCOE carburettors 43 mm deep, chromed
- **12111** For Weber 45 DCOE carburettors 43 mm deep, chromed

K&N Air filters
probably the most efficient way of ensuring clean, dirt free air for the engine without compromising performance. All filters are constructed with ultra-strong molded pliable rubber flanges which absorb vibration and allow for secure attachment and can also be stretched for up to 1/16“ to fit in-between sizes. K&N filters are washable, long life filters.

4 K&N Air filter
- **14357** For SU-H4 carburettors round, offset type, 45 mm deep TR2
- **311563** For SU-H6 und SU-HS6 carburettors round, offset type, 45 mm deep TR3, TR3A, TR3B and TR4
- **4813** For SU-H6, SU-HS6 and Zenith Stromberg carburettors round, centre type, 45 mm deep TR4 and TR4A
- **311578** For SU-H6, SU-HS6 and Zenith Stromberg carburettors round, centre type, 63 mm deep TR4 and TR4A

5 K&N Air filter for Weber 40 and 45 DCOE carburettors
- **4817** 45 mm deep. For 16 mm ram pipes
- **22650** 70 mm deep. For 16 mm ram pipes
- **215251** 83 mm deep. For 26/39 mms ram pipes

6 **316850** K&N Air filter for Weber 45 DCOE carburettors tapered, 76 mm deep. Two per carburettor needed

K&N Air filter cleaner
the only cleaner formulated to clean K&N filtercharger elements. The use of other cleaning liquids can result in damaging the cotton material of the air filter and therefore the guarantee expires. K&N air filter cleaners are diminishable biologically and do not harm alloy, chrome, rubber, plastic and lacquer to. K&N filters can be washed out up to 25 times before they need to be replaced.

7 **4820** 330 ml pump spray
8 **319259** 1 litre bottle

K&N air filter oil
is the only oil specially formulated to work in combination with the cotton fabric in K&N filtercharger elements providing a superior air filtration system. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric. Saturation is maintained until the element is cleaned with K&N air filter cleaner.

9 **214887** 20 ml sachet (enough for 2 filters)
10 **12353** 237 ml bottle
11 **311572** 400 ml aerosol

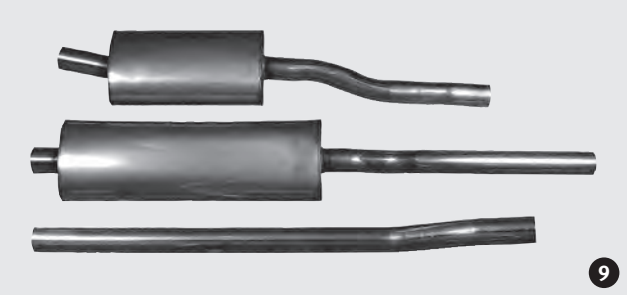
4 Tubular manifold
TR3A from TS50001, TR3B, TR4 and TR4A
(cars fitted with ‚long type' starter motor. Could also be fitted to earlier cars when using a high torque starter motor).
326262 Stainless steel
4526 Mild steel

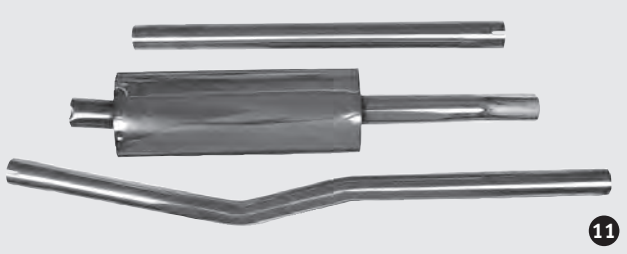
5 Stainless steel pipes - connecting exhaust with tubular manifold - TR2 to TR4
337393 ‚Y' exhaust pipe - manifold to adaptor pipe
342059 Adaptor pipe - ‚Y' pipe to exhaust system

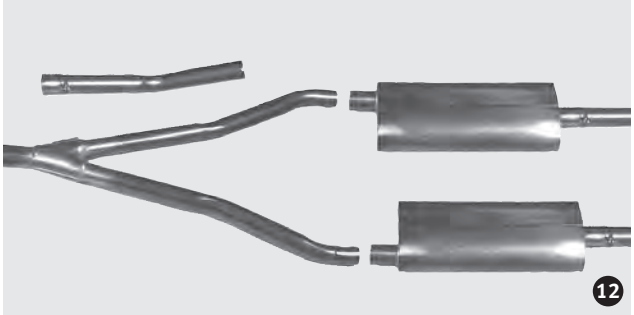
6 Stainless steel pipe - connecting exhaust with tubular manifold - TR4A
2637 ‚Y' pipe - tubular manifold to exhaust system

7 Exhaust system - stainless steel
2" big bore type with single silencer. This exhaust will link to our tubular manifolds 326262 and 4526 (ill. 4)
13010 TR2 to TR4
13012 TR4A

8 **15533** Exhaust system - stainless steel
1.7/8" sports type with twin rear silencers. This exhaust will link to our tubular manifolds 326262 and 4526 (ill. 4)
TR4A







Phoenix Performance Exhausts
no price compromise on quality. Their craftsmen use the industry's most sophisticated pipe bending technology to produce perfect mandrel bends to promote optimum exhaust gas flow performance. All sytems are manufactured from the finest 304 Grade stainless steel throughout their construction, including the internal baffle plates.

9 **298057** Phoenix Exhaust system - stainless steel
3 piece kit with standard diameter but without down pipe. Could be fitted to our tubular manifolds 296611 or 326262 (ill. 10) when using adaptor pipe 298058
TR2 to TR4

no ill. **298058** Phoenix Adaptor pipe - stainless steel
allows to adapt the above exhaust system to a tubular manifold 296611 or 323526 (ill. 10)
TR2 to TR4

10 Phoenix Tubular manifold - stainless steel
4-in-2-in-1 type with 2" big bore diameter
296611 TR2 from TS13052, TR3, TR3A to TS50000
(cars fitted with ‚bomb type' starter motor)
323526 TR3A from TS50001, TR3B, TR4 and TR4A
(cars fitted with ‚long type' starter motor. Could also be fitted to earlier cars when using a high torque starter motor)

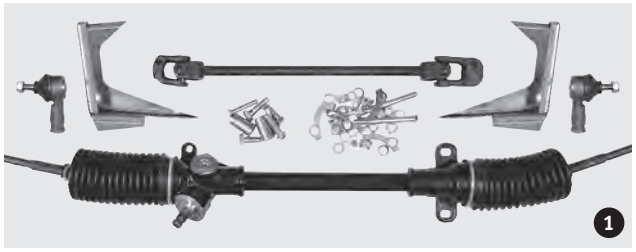
11 Phoenix Exhaust system - stainless steel
2" big bore type with single silencer. This exhaust will link to our tubular manifolds 296611 and 323526 (ill. 10)
13011 TR2 to TR4
296126 TR4A

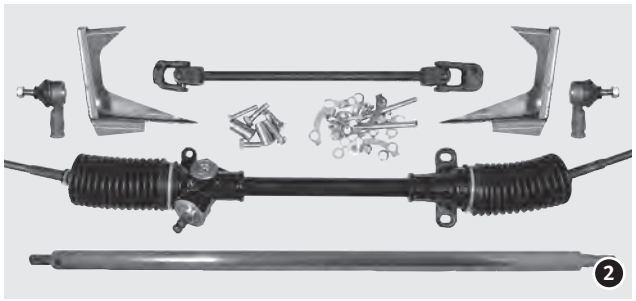
12 **296291** Phoenix Exhaust system - stainless steel
2" big bore type with twin silencer. This exhaust will link to our tubular manifold 323526 (ill. 10)
TR4A

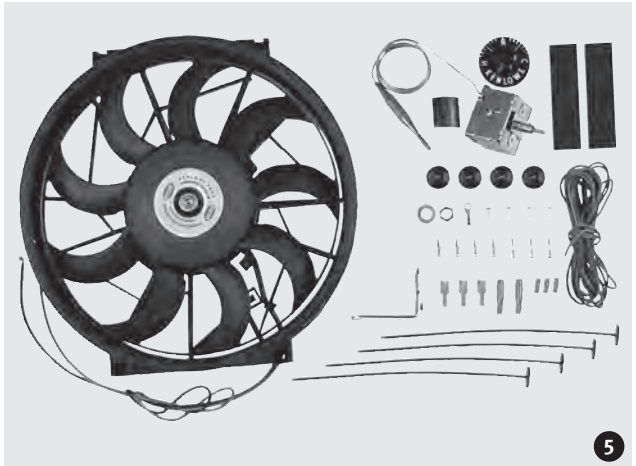
13 Exhaust mounting kits
20760 TR3 from TS11717, TR3A and TR3B. Must be modified when using on earlier models
20761 TR4
20762 TR4A to approx. CT70000 (cars fitted with twin box exhaust)
20763 TR4A from approx. CT70001 (cars fitted with single cross box exhaust)

14 **317127** Exhaust thermal wrap
roll with 10 meter - 50 mm wide, 2 mm thick. Heat resistant to 1000° C

15 **485440** Luster Lace Polishing strips ‚Combo'
complete assortment, for exhaust systems and tubular manifolds. Content: 4 strips 1/2" wide, 3 strips 3/4" wide and 2 strips 1.1/4" wide







Steering rack conversion kit
including modified steering arms. Your original steering arms need to be returned to us for credit as they are supplied on an exchange basis

1 TR2, TR3, TR3A and TR3B - vehicles with split steering column
6634 LHD cars
329330 RHD cars

2 TR2, TR3, TR3A and TR3B - vehicles with rigid steering column
294686 LHD cars
338812 RHD cars

Please find further components for steering rack conversion below
TR2, TR3, TR3A and TR3B

3 Support kit
to bolt steering rack conversion kit to bulkhead
338040 LHD cars
338039 RHD cars

4 **478480** Fan blade with fitting kit
may replace original fan

5 **301248** Kenlowe Electric fan with thermostatic switch technical data: single fan, diameter 320 mm, installation depth: 66 mm, air flow rate: 3126 m3/h. Fitted between radiator and engine. This fan is recommended as a primary cooling source and can be used as a alternative to our fan conversion 478480 (ill. 3)

no ill. **3491** Contact mechanism for original control head when fitting a steering rack conversion kit

6 Steering rack high ratio type
(2.1/2 turns from lock to lock). Mounted with rubber bushes to chassis
314953 LHD cars -TR4 from CT20064, all TR4A
314954 RHD cars - TR4 from CT20266, all TR4A

7 **347706** Tie rod end - reinforced type
TR4 und TR4A

8 Polyurethane bushes
Polyurethane bushes give improved suspension location with a greater wear resistance compared to their rubber equivalents. They are naturally self-lubricating. A worthwhile addition to any car, the polyethylene bushes are supplied individually, with a steel sleeve where necessary.
25799 Polyurethane bush - steering rack mounting
replacement for rubber mountings
TR4 RHD from CT20266, TR4 LHD from CT20064, all TR4A

9 **17053** Fitting kit - steering rack
uprated aluminium version. Replacement for rubber mountings
TR4 RHD from CT20266, TR4 LHD from CT20064, all TR4A

10 **343863** Bush - steering column
manufactured from modern nylon bearing material which can operate with much closer tolerances than the original bush could
TR4 and TR4A

1 Gaz shock absorbers
a real leap forward in performance suspension. A new range of fully adjustable competition and fast road shock absorbers and suspension kits for the discerning driver.
Flexibility: Easy 36 point rotary adjustment providing the facility for fine tuning without the need to remove the shock absorber from the car. Revolutionary: Double lip seal plus a further stem seal on the piston rod. Produces a shock absorber with unrivalled performance characteristics for both the road and track. Drivability: Employing our complete understanding of every aspect of damping technology we believe that Gaz shock absorbers strike the ultimate balance between comfort and performance road holding. Reliability: Every unit is fully tested and dispatched from our factory with an individual dynamometer report. Quality: Made to accredited ISO9002 standard and supplied with a 3 year warranty. Durability: Zinc plated body that resists salt spray and road grime on vehicles where detailing really matters. Availability: A full range of full adjustable shock absorbers and suspension kits for popular models.
342047 TR2, TR3, TR3A, TR3B and TR4
342049 TR4A

2 Koni shock absorbers
the Koni Classic line makes modern shock absorber technology available for classic cars and cars from the ‚50s, ‚60s, ‚70s and ‚80s. This range makes our extensive know-how and experience of improving handling and road holding available to owners of classic cars. Classic shock absorbers have the same superior qualities which the red Koni Special and the yellow Koni Sport shock absorbers offer to modern cars. Your classic car will run so smoothly that you won‘t recognise it. Koni Classic shock absorbers are finished with the traditional black gloss and wing logo used for the very first Koni shock absorbers. Koni Classic provides a unique combination of modern technology combined with traditional looks.
Koni‘s are adjustable, which means that you can influence the behaviour of the car to meet your preferences. It also means that wear can be compensated (however, you will probably never need it). Last but not least; Koni‘s are built to last a lifetime. Once you bought a set of Koni‘s for your car, the usually will outlive it.

317093 Front shock absorber upper mounting
TR2 to TR4A
25795 Front lower wishbone, with inner sleeve
TR4A
25794 Front upper wishbone
TR2 to TR4A
25794 Front lower wishbone
TR2, TR3 to TS9120
317871 Front anti roll bar link, with inner sleeve
TR4A
312158 Lubricant for polyurethane bushes, 5 g. tube

7 Nylatron bushes are machined from graphite impregnated nylon. They are designed to replace the standard rubber bush, thus helping to stiffen suspension unless you are willing to accept an increase of maintenance, noise and vibration. Recommended for competition, sprint and full race cars.

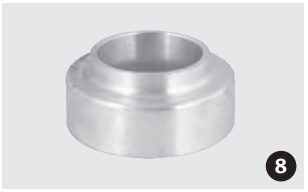
13527 Front lower wishbone - supplied in sets of 4
TR2 to TR4
25564 Front upper wishbone - supplied in sets of 4
TR2 to TR4
13527 Front upper wishbone - supplied in sets of 4 - TR4A
13529 Front lower inner wishbone - supplied in sets of 4
TR4A
13530 Front lower outer wishbone - supplied in sets of 4
TR4A
317094 Front shock absorber upper mounting - TR4A
12667 Front shock absorber lower mounting - TR4A

8 Coil springs
we offer a complete range of competition coil springs from Rally, through Fast Road to Full Race specification. All these springs are designed to be used with the standard 2" coil spring spacer 19115. It may not be needed when fitting these springs to lightweight cars.

1102 Spring rate: 390 lbs/in
fitted length on TR2 to TR4 models: 7.1"
fitted length on TR4A models: 7"
12112 Spring rate: 390 lbs/in
fitted length on TR2 to TR4 models: 6.7"
fitted length on TR4A models: 6.7"
4677 Spring rate: 420 lbs/in
fitted length on TR2 to TR4 models: 7"
fitted length on TR4A models: 7"
4493 Spring rate: 420 lbs/in
fitted length on TR2 to TR4 models: 6.2"
fitted length on TR4A models: 6"
12324 Spring rate: 450 lbs/in
fitted length on TR2 to TR4 models: 6.5"
fitted length on TR4A models: 6.5"

9 **19115** Coil spring spacer
made from aluminium. Height: 2"

10 **300878** Wishbone fulcrum pin
this useful kit allows an accurate camber setting of the front suspension. Complete set for RH and LH side
TR4 with wire wheels from CT6344, TR4 with disc wheels from CT6391, all TR4A



1 Leaf springs
- **17408** Lowered by 1“ approx
  TR2, TR3, TR3A, TR4 up to CT23382
- **12572** Road/Rally type with increased spring rate
  TR2, TR3, TR3A, TR4 up to CT23382
- **17407** Lowerd race type with increased spring rate
  TR2, TR3, TR3A, TR4 up to CT23382
- **296860** Lowered by 1“ approx
  TR4 from CT23383

2 **313452** Polyurethane bush - leaf spring, rear shackle
TR2 to TR4A with solid rear axle

3 **13034** Nylatron bush - leaf spring, rear shackle
TR2 to TR4A with solid rear axle

4 Shock absorber - 25% uprated version
TR2 to TR4
- **479657** LH rear - new item
- **19186** LH rear - exchange
- **479658** RH rear - new item
- **19187** RH rear - exchange

5 **25796** Polyurethane bush with inner sleeve
rear trailing arm
TR4A IRS

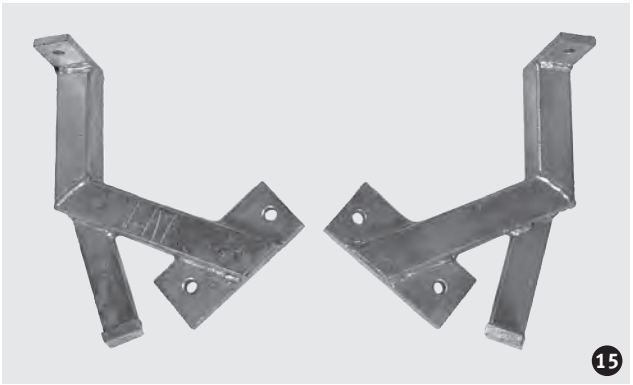
6 **12814** Nylatron bush - rear trailing arm
TR4A IRS

7 Coil springs for TR4 IRS
We offer a complete range of competition coil springs from Rally, through Fast Road to Full Race specification. All these springs are designed to be used with the standard 2” coil spring spacer 19115. It may not be needed when fitting these springs to lightweight cars.
- **1103** Spring rate: 390 lbs/in
  fitted length: 9.65“
- **2765** Spring rate: 420 lbs/in
  fitted length: 8.85“
- **4678** Spring rate: 420 lbs/in
  fitted length: 8.5“
- **4710** Spring rate: 510 lbs/in
  fitted length: 8.45“
- **4679** Spring rate: 550 lbs/in
  fitted length: 7.3“

8 **19115** Spacer - coil spring
made from aluminium. Height: 2“
TR4A IRS

9 **20035** Spacer plate - coil spring
made from nylon. Allows adjustment of the spring fitted height. Maximum of 2 per spring. Height: 1.20“
TR4A IRS

10 **317895** Polyurethane pad - coil spring insulator
TR4A IRS



11 Shock absorber - 25% uprated version
TR4A
326287 LH rear - new item
20857 LH rear - exchange
326288 RH rear - new item
20858 RH rear - exchange

12 **15826** Shock absorber valve - 25% uprated version
to fit to your own unit
TR4A

13 **317093** Polyurethane bush
rear shock absorber connection link to trailing arm
TR4A IRS

14 Shock absorber conversion brackets rear
The main bracket is bolted to the shock absorber mount and the axle bracket is bolted and then to be welded in position. TR2 and TR3 models need some modification at the main bracket. Available as a set of brackets with instructions.
15528 TR2, TR3, TR3A to TS60000
467185 TR3A from TS60001, TR3B, TR4 and TR4A with solid axle

15 **16532** Shock absorber conversion brackets rear
This new developed conversion kit allows the fitment of the dampers to the chassis to improve the ride and suspension. To fit this bracket kit will take a little longer but do strengthen and stiffen the rear of the bodyshell. Available as a set of brackets with instructions.

  identify by deep dished spring fitted with alloy spacer
- **342050** TR4A IRS

18 **17683** Quaiffe Limited slip differential
a direct replacement for the standard differential, the limited slip differential transforms your car's performance. Unlike a conventional plate-style limited slip differential, this differential relies on gears rather than clutch plates for its operation. That means it is much smoother in operation. This differential type never locks harshly with a set pre-load of wheel slip across the driven axle, like a conventional LSD. Rather, the differential automatically biases the torque away from the spinning wheel across the axle, to a constantly varying degree, and never locks.

19 Crown wheel and pinion for all TR2 to TR4A models
- **2463** Ratio: 3.45:1
- **365** Ratio: 3.70:1
- **293270** Ratio: 4.33:1

1 Mintex M1144 brake pads
the Mintex brand is the most famous when it comes to motorsport. Through intense Research and Development Mintex materials cater not only for Original Equipment and Aftermarket needs but at the other extreme for competition purposes. It is from motorsport that the latest family of Mintex materials have been developed. Known as C-Tech, these materials cover a whole spectrum of vehicles from a typical small hot hatchback for normal day to day use, through to a fully race prepared 700 bhp racing machine.
M1144 is the material for fast road use as well as light competition such as karting, hill climb and single seater racing cars. One of the main characteristics of this material is the ability to work from cold, which gives the user the confidence of a standard material on the first application of the brakes. The benefit of M1144 is experienced as the temperature within the brakes starts to increase. M1144 will remain stable and consistent through to 450° C where a standard material at this temperature will most certainly start to fade. The bedding in procedure for M1144 is the same as any standard material i.e. steady braking for the first 50 miles, avoiding emergency stops. All M1144 pads are supplied with fully branded C-Tech anti noise shims and a C-Tech sticker.

205117 Mintex Brake pads - front
TR3B TCF series, TR4 with wire wheels from CT4690, TR4 with disc wheels from CT4388, all TR4A

2 **475036** Brake pads - front
Kevlar ‚green stuff' specification
TR3B TCF series, TR4 with wire wheels from CT4690, TR4 with disc wheels from CT4388, all TR4A

3 **337602** Brake discs - front
with curved grooves and spot drillings to maximize pad performance - supplied in pairs for standard 2 pot calipers
TR3B TCF series, TR4 with wire wheels from CT4690, TR4 with disc wheels from CT4388, all TR4A

4 **320312** Brake disc - front
drilled. Suitable for standard 2 pot calipers
TR3B TCF series, TR4 with wire wheels from CT4690, TR4 with disc wheels from CT4388, all TR4A

5 Front brake conversion kit to 4 pot calipers
contents: competition brake pads, 4 pot calipers, 283 mm vented discs, billet machined brackets and all needed fittings.
TR3 from TS130446, TR3A to TR4A
Direct replacement for above listed cars, but can also be fitted to earlier cars by changing the caliper mounting bracket to the later type.

15396 Kit with vented discs
327493 Kit with vented discs with curved grooves and spot drillings

319940 Fast Road specification
323473 Race specification

9 Goodridge Brake hoses - aeroquip type
Goodridge have developed and manufactured hoses for the following high profile applications Formula 1, Thrust 2 (world land speed record holder), Nascar, every major Rally team. Because of their expertise in the hydraulics field they have been able to apply this knowledge to the automotive industry to give replacement brake hoses and fittings that outperform even the original equipment products. Goodridge kits feature the finest quality stainless steel braided hose, which improves braking performance, eliminates the spongy feel of rubber hoses and provides superior resistance to corrosion. Hose end fittings are zinc plated steel as standard or stainless steel as an option. Goodridge manufacture hose for all the major manufacturers including.
295770 Set with 3 lines
TR2, TR3 to TS 13045
312461 Set with 3 lines
TR3 from TS13046, TR3A, TR3B and TR4
325153 Set with 3 lines
TR4A with solid rear axle
343272 Set with 4 lines
TR4A IRS

10 **281649** Brake servo with fitting kit
brake pressure: 1.90:1, bore size: 5/8“. Suitable for all models with single line braking system

11 Rear brake drum
made of aluminium alloy with bonded iron inserts and circumferential fins. These brake drums improve heat dissipation, add to the braking capacity of your car and also reduces the fading. Two needed per car.
3288 ‚A-Fin‘ drum
TR3A from TS56377, TR3B, TR4 and TR4A
(cars with 9“ brakes)

Wire wheels
over the years, our wire wheels have evolved through the incorporation of new technology and superior materials, changing with the times without compromising the classic style. All our British Classic Wire Wheels are covered by warranty periods of up to three years.
Wire wheel finishes. The rim and shell are polished to superior finish in special purpose machines. The hand polishing by highly skilled craftsmen compliments this. The nickel plating is done by the Dunlop Method, in which a decorative bright nickel layer is plated over a strong inner semi-bright layer of nickel. The surface finish is enhanced by using technologically latest levelling brightness. To enhance the corrosion resistance, micro porous nickel plating is done prior to chrome plating.
Spokes. All our chrome wire wheels are built with stainless steel spokes and nipples.
Fitting instruction. Every centre lock wire wheel comes with fitting instruction to assist in solving problems that are commonly encountered when balancing centre lock wire wheels on an electronic balancer.
Competition wire wheels. For running our competition wire wheels modifications on the front and rear wings will be necessary.
Painted wire wheels. Our painted wire wheels are primer coated by first using Cathodic Electrophoretic Technology. This increases the corrosion resistance to very high levels. An overcoat of silver grey follows this.

1 Wire wheel - 4.0J x 15“
number of spokes: 48, rim inset: 19.00 mm, wheel weight: 6.90 kg, maximum wheel load: 318 kg
215191 Chromed
2726 Painted

2 Wire wheel - 4.5J x 15“
number of spokes: 60, rim inset: 19.00 mm, wheel weight: 7.20 kg, maximum wheel load: 310 kg
1595 Chromed
2021 Painted

3 Wire wheel - 5.5J x 15“
number of spokes: 72, rim inset: 13.00 mm, wheel weight: 9.70 kg, maximum wheel load: 450 kg
201870 Chromed

Thor Hammers
made in England to high quality standards, these soft-faced hammers provide a safer alternative to striking with conventional steel hammers in industrial applications. The resilent faces shape themeselves to the part being struck. Acting as shock absorbers, they spread the force of the blow uniformly, minimising inefficient rebound and damage to components. The Thor Hammer Company is a traditional british supplier and known for superior quality. Thor hammers were original equipment in many Jaguar,Triumph TR and MG tool kits of the 50's and 60's.

12 **878** Thor Hammer - copper/hide, weight: 1000 g.
13 **2183** Thor Hammer - lead alloy, weight: 1000 g.

14 **671** Spanner for octagonal spinners

15 **213169** Spanner for octagonal spinners, made from bronze

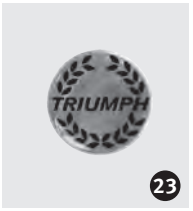
16 **326088** Large spanner for octagonal spinners, long version for providing much greater leverage

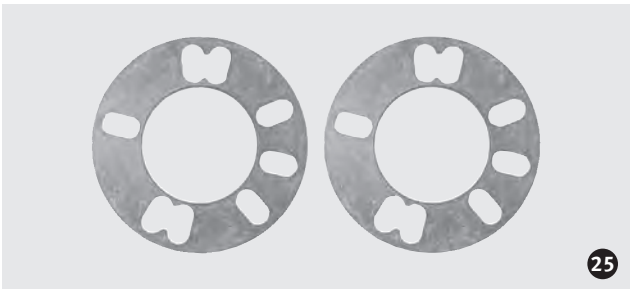
17 **327498** Wooden spinner saver for 2 eared spinners, made from 23 mm Multiplex

18 **326089** Large spanner for 2 eared spinners, long version for providing much greater leverage

19 **7339** Spoke brush
solid round brush with wooden handle, length: 38 cm

20 **11321** Spoke wrench
for tightening spokes, length: 200 mm





21 Minator Alloy wheels
17244 5.5J x 15“, with 8 spokes, bolt-on fitment, rim inset: 15.00 mm, silver painted
17245 5.5J x 15“, with 8 spokes, bolt-on fitment rim inset: 15.00 mm, anthracite painted
319931 6.0J x 15“, with 8 spokes, bolt-on fitment, rim inset: 8.00 mm, silver painted

22 **309025** Hub cap
for Minator bolt on-alloy wheels

23 **339190** Badge for centre cap
with ‚TR‘ logo, diameter: 40 mm

24 **305614** Wheel nut chromed
for Minator bolt-on alloy wheels

25 Wheel spacers - supplied in pairs
14977 3 mm version
315658 6 mm version

26 **312001** Tyre valve caps
chromed with ‚TR‘ logo. Supplied in set of 4

27 Tyres

1 123 Ignition system
for 4 cylinder models with Lucas distributors, negative earth and electric tachometer
485462 With top entry distributor cap
295886 With side entry distributor cap

- **Less emissions**
- **Better starting**
- **Maintenance-free**
- **Simple installation**
- **Variable dwell-angle**
- **Lower fuel consumption**
- **Attractive "original" look**
- **Stronger spark at all speeds**
- **Smooth engine torque curve**
- **Easy timing: with built-in LED**
- **Spark balancing: less noise & more power**
- **16 user selectable electronic advance curves**
- **Available for 4, 6, 8 and 12 cylinder engines**

Buy a 123 ignition now! Enjoy todays standards of reliability and performance. Join the rapidly growing group of trouble-free classic car owners. 123 ignition distributors are available for many engines!

Introducing the ”123 ignition”
The ignition-system in a classic car is often the source of many problems. After years of use, the mechanical distributor becomes worn and increasingly inaccurate.

Although replacement of the standard points with an optical eye or magnetic ignition set-up is an improvement, it does not compensate for the wear in the advance-mechanism, the distributor shaft and bearings within the distributor itself.

The 123 ignition distributor is different. It comes in its own aluminium billet and nickel plated housing, although externally similar in its classic appearance to its mechanical counterpart, it contains high-tech electro nics on the inside. While maintaining classic appearances under the bonnet, the internal technology makes your ignitionsystem and engine perform better than ever before.

The 123 ignition is only available for negative earth cars.

Lumenition Optronic Ignition system
the Lumenition Optronic Ignition Systems are well known as being among the finest after market electronic ignition systems available. The Lumenition Optronic Ignition is an electronic ignition conversion principally for cars fitted with mechanical distributors using contact set and condenser. There are only three components, very compact and simple to fit. First the optical switch, this contains a light emitting diode (LED) which sits on the switch bracket opposite a matching silicon photo transistor which receives or „sees“ the infra red beam. Secondly, the interrupter called a chopper which is fitted over the cam, rotates interrupting the beam of light causing a pulse. It has one bade for each cylinder of the engine. Thirdly a power module receives this pulse via its internal electronic device which switches the ignition coil on hand off. The coil produces a high tension spark when switched off and is recharged when switched on. The installation can be carried out in most cases in less than an hour, a little longer with distributors that have the advance mechanism over the top of the original contact set. The advantage of the Lumenition Optronic system is that it contains no wearing parts, requires no adjustment or maintenance during service and once ignition timing is set it will remain permanently in tune. The engine will run better, more economically through improved efficiency, last longer and start better. Lumenition Optronic Ignition is suitable for vehicles with or without ballast resistor systems and/or voltage triggered tachometers. For positive and negative earthed cars.

2 **313606** Lumenition Optronic Ignition module
for Lucas distributors

3 Lumenition fitting kits for distributors with Optronic module
313608 For Lucas 22D, 23D and 25D distributors
313611 For Lucas 43D, 45D, 48D, 54D and 59D distributors.
Not suitable for vehicles with electonic ignition

4 Lumenition Magnetronic Ignition system
the Lumenition Magnetronic Ignition System is designed as a budget electronic conversion for owners requiring the original look. All parts are neatly contained within the distributor unit. The system utilises the proven ‚Hall Effect‘ magnetic pick-up and a unique triggering device. There are not any touching or wearing components, ensuring timing will remain accurate once installed. For negative earthed cars only.
317778 For Lucas 25D4 distributors

5 Pertronix electronic ignition system
286805 For Lucas DM2P4 distributors. Positive earthed cars
245018 For Lucas 25D4 distributors. Positive earthed cars
343192 For Lucas 25D4 distributors. Negative earthed cars

1 Battery - 12 V, 58 AH
needed fixing bolts, part no. 3531
316381 Positive pole on RH side and negative pole on LH side
19592 Positive pole on LH side and negative pole on RH side

2 **327890** Battery acid - 1 litre
specifications: 38% sulphuric acid, density: 1.280 s.g.

3 **343415** Battery acid mat
neutralizes battery acid and protects your vehicle against corrosion. Size: 12.1/4 x 8.1/4“

4 Battery terminal clamp - cable diameter: 9 mm
13728 For negative battery pole
13729 For positive battery pole

5 **479870** Battery terminals
speed power type in red and blue, for a quick changing of the battery without a tool. Supplied in pairs

6 **479848** Terminal protector rings
comes red and green, prevents oxidation. Supplied in pairs

7 **216298** Grease for battery terminals - 100 g tube
our battery terminal grease is acid resitent and waterproof and protects the terminals and other electrical contacts against corrosion and oxidation and provides the proper flow of current.

8 **318072** Battery master switch
with a knurled nut for separating the battery from the electric circuit. Comes with bypass fuse for clock, alarm system etc. to maintain memory

Battery master switch
removable key type. This battery switch is an easy and effective way to protect your vehicle against fires and thieves. By switching the key you can disconnect the battery from the entire electric circuit. The switch can be mounted anywhere in your vehicle. The race type edition has additional terminals and suits the FIA requirements for historic racing events.
9 **289327** Standard version
10 **14412** Race version

13

11 C Tek Battery charger
high frequency charger with multistage charging and peak control. Batteries can be charged while they are connected to the car without the danger of harming electric components. Pulse load keeps the battery always at 100% of its cranking capacity. Can be left connected permanently. The smartest charger we could find, fully automatic Swedish High-Tec charger.
Safety class IP65 (moisture protected and dust sealed).

XS 800 - for 12 volt batteries up to 32 AH, (maintenance charging up to 100 AH), charging current: 0.8 A
479840 XS800 with Euro plug
373249 XS800 with UK plug

Multi XS 3600 - for 12 volt batteries up to 120 AH, charging current: 0.8/3.6 A
479841 Multi XS 3600 with Euro plug
373516 Multi XS 3600 with UK plug

12 Hydrometer - special tool for checking battery acid
479860 with thermometer assembly
479861 without thermometer

13 Circuit testing lamp
479867 Brass plated
479868 Nickel plated

High performance starter motors
our modern gear reduction, high torque starter motors are specially developed for classic cars. They use a powerful 1.5 kw motor running through a reduction gear box, turning the engine over faster, more powerfully and for longer. No more worries on the start line when the engine is hot. All starter motors are a replacement for the original unit.

1 **317415** High performance starter motor
gear diameter: 35 mms, number of teeth: 9
TR2 and TR3, TR3A to TS50000

2 **316558** High performance starter motor
gear diameter: 39 mms, number of teeth: 10
TR3A from TS50001, TR3B, TR4 and TR4A

3 Alternator conversion in the original Lucas look
with our Superlight AC Alternator conversion kit all Lucas C 40 dynamos with negative earth can be replaced. You can benefit from the following improvements: Since the Superlight Alternator is lighter it uses less motor energy and provides you with more power for the road. Half the weight, twice the power! The Original Look of your classic car is untouched, our product looks like the old Lucas, just hidden inside is the up-to-date high tec. Even your old regulator remains in the car, so the update is not visible. Remove your old dynamo and take of the pulley, spacers and washers and fit them on the alternator. In some cases you need to drill out the pulley with a 17mm drill. Ensure that the pulley is gripped between the nut head and the spacer. Tighten the nut by holding the flats on the shaft end, never insert anything into the commutator. Remove field lead (F) and warning light (WL) from the Regulator and attach together. Remove dynamo lead from the regulator and attach it to the battery positive lead to create a battery positive feed. 1600 rpm 13 Ampere, 2000 rpm 21 Ampere, 2400 rpm 27 Ampere, 3500 rpm 38 Ampere, 5000 rpm 43 Ampere, 6000 rpm 44 Ampere, Maximum power output: 584 Watt, Voltage: 14,89 Volt, Compare with C40: max. approx. 22 Ampere
Half the weight, twice the power!
3 **479752** Alternator conversion kit C40

Alternator conversion
please find single components for individual conversion below. Only for negative earthed cars. If your car still using a positive earth it will have to be converted. In addition our narrow fan belt kit (part no. 15523) has to be fitted. For more information see chapter 21.5

4 **323231** Alternator with 45 amp. output
earth return: negative

5 **11376** Fan - alternator

6 Wiring loom - alternator
342078 TR2, TR3, TR3A and TR3B, TR4 to CT14913
342079 TR4 from CT14914, TR4A

7 **342077** Fitting kit - alternator
including adjustment link.
Please check before fitting: original dynamo pedestal and block bracket must be in satisfactory condition

5

1 Original Triumph
written by Bill Piggott, Photography by Paul Debois - 112 pages, 302 x 232 mm, hardcover.
First-class samples of TR models are comprehensively described here, accompanied by 160 exclusive and brilliant colour pictures, showing detailed parts of bodywork, interior and mechanical components.
355025 German version contain all TR2 to TR6 models
21021 English version contain only TR4 to TR6 models

2 Triumph TR
a book from the Haynes Great Cars Series. Written by Bill Piggott - 160 pages, 250 illustrations, 250 x 250 mm, hardcover.
The Triumph TR range is among the most popular British sports cars of all, on both sides of the Atlantic. These traditional two-seater roadsters are really in the limelight at the time of this book's publication, as 2003 is the 50th anniversary of the breed and this landmark is being celebrated at various special events. The cars covered in this book range from the basic four-cylinder TR2 introduced in 1953 to the hairy-chested six-cylinder TR6 that finally bowed out of production in 1975, to be replaced by the unloved TR7.
342539 German version
464805 English version

3 **299503** Triumph TR's
a book from the Collector's Guide series. Written by Graham Robson - German, 142 pages, more than 170 illustrations, 235 x 165 mm, hardcover.
The Triumph TRs from first classic TRs, prototypes and special types as well as competition cars explained with all technical informations.

4 **13876** Manual - Competition preparation
for TR3 and TR4. English, 48 pages, 148 x 110 mm, softcover

5 **339554** Veloce How to Restore TR2 - TR3A
written by Roger Williams - English, 192 pages, 270 x 207 mm. Foreword by Bill Piggott, 450 b/w illustrations, softcover.
This book covers all Triumph TR2, TR3 and TR3A models, explains the characteristics of the different models, what to look out for when purchasing and how to restore a TR cost effectively. As well as his own substantial experience and that of other amateur restorers, the author had the help of various TR specialists and professional restorers. All this knowledge, allied to substantial photographic coverage, allows Roger Williams to provide truly detailed coverage of complete restoration and good advice on how to overcome common problems.

10

6 **464791** Veloce How to Restore TR4 & TR4A
written by Roger Williams - English, 192 pages, 450 illustrations, 270 x 207 mm, softcover.
This book covers all Triumph TR4 and TR4A models from 1961-1967. The author explains what to look out for when purchasing and how to restore a TR4 or TR4A cost effectively. As well as his own substantial experience and that of other amateur restorers, the author had the help of various TR specialists and professional restorers. All this knowledge, allied to substantial photographic coverage, allows Roger Williams to provide truly detailed coverage of the complete restoration of TR4 and TR4A Roadsters and good advice on how to overcome common problems.

7 **479301** Veloce How to improve TR2 - TR4A
written by Roger Williams - English, 144 pages, 250 x 207 mm. Foreword by Peter Cox, 300 coloured, 30 b/w photos, 10 illustrations, softcover.
This book applies to all 4-cylinder TR sportscars. Practical and realistic advice on how to improve performance, braking, handling, reliability, appearance and comfort. The author is a production engineer with real hands-on experience of improving these cars. Step-by-step illustrated procedures, colour throughout.

8 **16708** Triumph TR2, TR3 & TR3A in Detail
written by Bill Piggott - English, 192 pages, 270 x 210 mm, softcover.
The Triumph TR sports car were simple, inexpensive, fast and fun to drive, if somtimes wayward on the limit. Here the 1950s first-generation models - TR2, TR3 and TR3A - are described in depth, including development, production, specification changes, competition history and the practical aspects of owning one today.

9 **272103** Crowood Triumph TR's
written by Graham Robson - English, 192 pages, 106 colour and 78 b/w photos, 260 x 195 mm, softcover.
In this book Graham Robson tells the story of some of the most successful of all British sports cars, and how Standard-Triumph began thirty years of success with their TR2 in 1953. From the early origins of the Triumph marque through to the final TR8 model of 1981, all models are covered as well as lesser known prototypes. Superbly illustrated with contemporary and new photographs throughout, this book is a delight for all fans of Triumph sports cars.

10 **7712** TR for Triumph
written by Chris Harvey - English, 256 pages with 235 illustrations, 297 x 210 mm, softcover.
From the popular OIP ‚Classic Car Series', this book has been re-issued to satisfy a continuing demand. It provides a wealth of technical information with a fully illustrated history, anecdotes, practical tips, and compulsive reading in the form of contemporary road testers' reports. There is also advice on what to look for when buying a Triumph TR - the strengths and weaknesses of this classic car - hints on restoration and on preparing a car for competition, and fascinating information on the competition successes and the men behind the cars.

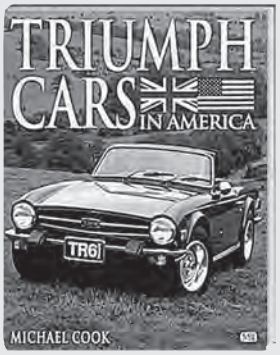
14



15

11 **303018** Road & Track Tests
Triumph Sports Cars (1953 - 67)
English, 88 pages, 270 x 200 mm, softcover.
A Brookland book form the Road and Track series. Official reprints of the original articles taken from America's most popular motoring magazines, includes various test reports.

12 **307059** Triumph TR2 & TR3 (1952-1961)
Englisch, 172 pages, 450 illustrations, softcover.
A book from the Gold Portfolio series. Official reprints from British period motoring magazines, they review all areas of the vehicle. Includes road test reports, tuning information, as well as purchase tips and a lot of specified photos.

13 **303014** Triumph TR4, TR5, TR250 (1961-1968)
English, 100 pages, 177 illustrations, softcover.
A book from the Gold Portfolio series. Official reprints from British period motoring magazines, they review all areas of the vehicle. Includes road test reports, tuning information, as well as purchase tips and a lot of specified photos.

14 **293435** Triumph - Sport and Elegance
A book from the classic makes series.
Written by Bill Piggott - English, 160 pages, 110 coloured and 40 black/white illustrations, 270 x 210 mm, hardcover.
The inside story of a popular make that has always had a special place in the hearts of sports car enthusiasts, and manufactured some acclaimed saloon cars as well. The varied content includes technical information, driving impressions and buying hints.

15 **293847** Triumph Cars in America
written by Michael Cook - English, 192 pages, 250 black/white illustrations, 273 x 210 mm, softcover.
As with most postwar British sports cars, a large portion of the Triumphs produced in the 1950s and 1960s were exported to the United States. As a result, the demands of U.S. customers essentially defined what a Triumph sports car would be. This automotive history tells the colorful tale of Triumphs successes in the United States, how the marque was established, its dealer network, promotional and marketing efforts, racing ventures that starred legendary drivers like Stirling Moss and Bob Tulius, profiles of U.S.-exclusive models, and, finally, Triumphs sad defeat under the umbrella of British Leyland. A huge collection of black-and-white photography, much of it archival and not seen in print for decades, imparts a sense of this British marques jolly good run in the United States.

16 **25739** The Works Triumphs - 50 Years in Motorsport
Written by Graham Robson - Englsh, 296 pages, 319 illustrations, 241 x 178 mm, hardcover.
For more than half a century Triumph cars were strong contenders on the international race and rally scene, but their many successes were punctuated by financial crises and changes in company ownership, until the British Leyland axe finally fell just after the 1980 Lombard/RAC Rally. In this classic book author Graham Robson - Triumph co-driver and team manager - recaptures the thrills and problems of those turbulent years.

17 **299620** Veloce Works Rally Mechanic
the BMC/BL Works Rally Department from 1955 to 1979.
Written by: Brian Moylan - English, 160 pages, 150 illustrations, 250 x 207 mm, softcover.
This book tells the inside story of BMC's/BL's Competition Department from 1955-1979 under the management of Marcus Chambers, Stuart Turner, Peter Browning, Basil Wales, Richard Seth-Smith, Bill Price and John Davenport. A story of adventure, hilarious events, hardship, winning, losing, real danger and BMC's/BL's corporate politics.
Brian Moylan spent 22 years with the Competition Department preparing cars for international rallies and travelling the world to provide service support during the rallies. During this period, Big Healeys, Minis and TR7s were amongst the front runners in the world rally scene, though many other BMC/BL models also saw use as rally cars. The author tells from a mechanic's point of view how BMC/BL rally cars evolved during this important period.

18 **478957** Triumph Cars: The Complete Story
written by Graham Robson and Richard Langworth - English, 352 pages, 520 illustrations, 246 x 186 mm, softcover.
The definitive story of all Triumph cars made from 1923 to 1984, of the distinguished and often controversial people who led the company, and the marque's performances on both road and track.
Chapters:
The Quality Light Car; The last word in the smallest class; From Scorpion to Southern Cross; The Smartest Cars in the Land; The big one that got away; Dolomite and demise; War and resurrection; Roadster and Renown; Mayflower: A second American invasion; The sports car America loved best; Hark the Herald angle; 'Bomb' and beyond . . . the Spitfire story; 'Sabrina' and a new TR; Leyland takes over; Triumph for the 1970s; TR7 and TR8; Acclaim – badge engineering for a sad end; Prewar portfolio; Postwar portfolio. Appendices: Triumph derivations; Production factories 1923-1984; Technical specifications 1923-1984; Triumph and Standard body sources 1945-1984; Triumph production totals 1923-1984; Triumph car clubs.

19 **478958** Triumph Sports Cars
written by William (Bill) Krause - English, 96 pages, 80 coloured und 10 black/white illustrations, 229 x 210 mm, softcover.
The cars of Triumphs TR series, Spitfires, and GT6s are quintessential British sports cars. Triumph Sports Cars recounts the colorful history of Triumphs successful sports cars, and includes coverage of technical development, promotions, racing, competition with other imports, and Triumphs ultimate decline under British Leyland.

1 **19072** Jack
TR2 to TR4

2 **470250** Ratchet for jack
TR2 to TR4

3 **289983** Jack - original style
TR4A

4 **310517** Jack - replacement type
TR4A

5 **339126** Coil spring compressor - original Sykes Pickavant

6 **311484** Coil spring compressor
with 190 mm maximum opening. Hooks manufactured from tension ductile iron with galvanized finish. Supplied in pairs

7 **294556** Puller for rear hub
enables quick and safe removal of rear hub flange without damaging the surface

8 **19182** Spanner
for oil filter plug on ‚A' type overdrive

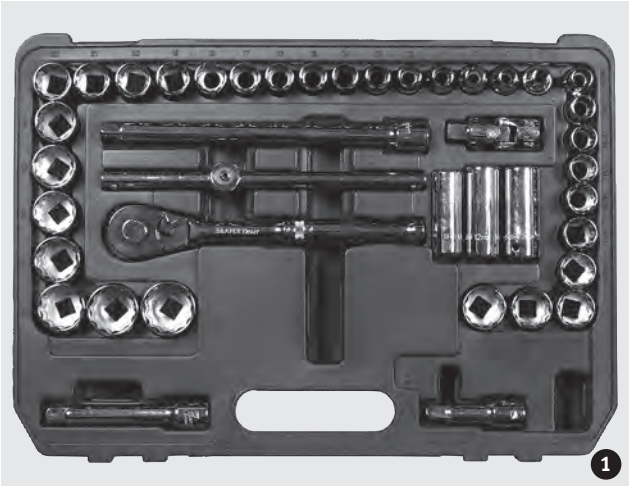
9 **10280** Square key
to secure wheel spats, side screens bonnets and boot lids

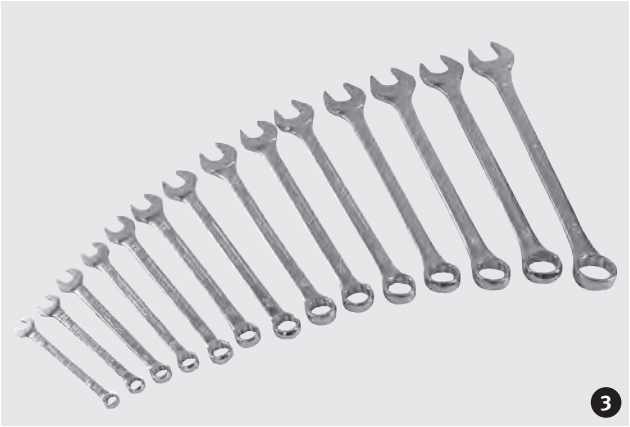
10 **21272** Tool
for retaining clips and weather strips

11 Alignment tool for clutch
16275 Variant with 10 splines - TR2 to TR4
25700 Variant with 23 splines - TR4A

12 **20661** Tool kit for SU carburettors
three-piece including jet linkage spanner

13 **19067** Adjusting tool
for idle mixture screw on Zenith Stromberg carburettors





1 Socket sets - mm and af
Draper Expert Hi-TorqTM sockets have 6 or 12 corners with a special radius design giving added torque. This design also extents the life of the socket and fastener. These sockets have a hole for positive ball retention in accordance with DIN 3120 specification. Expert quality socket set manufactured from chrome vanadium steel hardened, tempered, chrome plated and polished for corrosion protection. Packed in blow mould carrying case and display sleeve.

311692 42 piece. 1/2“ square drive
306849 42 piece. 3/8“ square drive
214942 75 piece. 1/4“ square drive

2 Gear wrench
479871 supplied in sets of six with 7/16, 1/2, 9/16, 5/8, 11/16, 3/4“ wrechnes. With 5° drive and fixed head
244339 supplied in sets of seven with 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4“ wrenches. With 5° drive and 180° flex action head

3 Combination spanner set - made from forged from chrome vanadium steel. Comes with tool bag

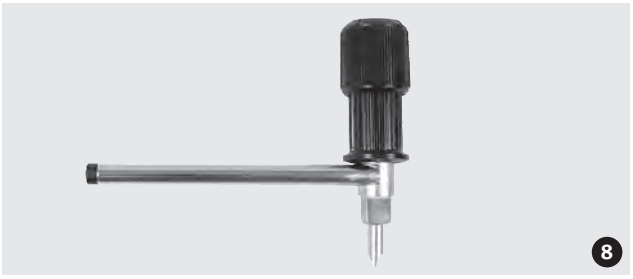
214943 14 piece: 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4, 13/16, 7/8, 15/16, 1, 1.1/16, 1.1/8 & 1.1/4“
311507 11 piece: 1/4, 5/16, 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4, 13/16 & 7/8“
204790 6 piece: 3/8, 7/16, 1/2, 9/16, 5/8 & 3/4“

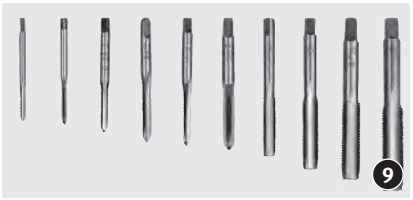
4 Torque wrench with reversible ratchet head
The lb-ft and Nm scale is engraved on the barrel of the wrench. The micrometer type sleeve allows accurate preset torque values to be set. When torque is reached the wrench produces an audible click and a release of tension. Marked range: 40-210 Nm / 30-154 lb-ft. Overall length 475 mm. Supplied in blow mould storage case.

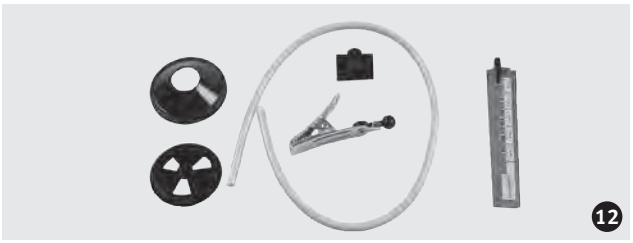
311625 Torque wrench

5 Valve grinder with PVC shaft, 19 and 22mm rubber suction ends

311477 without grinding paste
321618 complete kit with coarse and fine grinding paste.







6 **305566** Feeler gauge - imperial, with 10 blades: 0.0015, 0.002, 0.003, 0.004, 0.006, 0.008, 0.010, 0.012, 0.015 and 0.025“, length of the pages: 100 mm

7 Nut splitter with chromed surface
expert quality, manufactured from chrome vanadium steel with square drive ends.
317014 from 9 to 22 mm and from 3/8 to 7/8“. Supplied in a sets of three
328862 from 9 to 12 mm. Length 80 mm
328863 from 12 to 16 mm. Length 105 mm
328864 from 16 to 22 mm. Length 130 mm

8 **313529** Gunson‘s Clikadjust with micrometer
adjust tappets precisely, count the clicks for exact micro adjustment, no need to use a feeler gauge

9 **328866** Thread chaser and cleaner - supplied in a 10 piece imperial hand tap set. Manufactured from special high carbon steel with accurately cut threads. Contents: No.5, 6, 8, 10 and 12 and 1/4, 5/16, 3/8, 7/16 and 1/2“

10 **307724** Thread chaser and cleaner
double ended, 14 and 18 mm, for spark plug threads etc.

11 **19831** Gunson‘s Colortune for 14 mm spark plugs
allows you to see the colour of combustion in your cylinders. The kit includes a special glass topped spark plug, reflective viewing system for difficult plug locations, cleaning supplies and a wall chart with instructions.

12 **25749** Gunson‘s Carburettor balancer
for SU and Zenith carburettors - plastic type

13 **343265** Gunson‘s Gastester
digital exhaust CO analyser with pulse pump

14 **319923** Ignition electrode tool
4 in 1 kit. Content 6 blade feeler gauge from 0.02“ to 0.04“ and also spark plug gap, wire brush and reamer

15 **305567** Spark plug wrench
for spark plugs with 14 mm thread

16 **258249** Grease gun - double action tool
for oiling and greasing. Ideal for on-the-road use, contents: 100 ml

17 **345595** On board tool kit
contents: 7 combination AF spanner, combination pliers, spark plug wrench, circuit tester, reversible screw driver and feeler gauge. Comes with a vinyl tool roll

18 **480895** Gunson‘s Ignition timing light „Supastrobe“
professional edition with rigid metal case and a digital display for volts, rpm, dwell, and advance degrees. This stroboscope is fitted with a powerful Xenon bulb that provides a brilliant blue/white light which is highly visible even under bright daylight conditions. The signal pick-up is inductive. Suitable for all petrol cars with 12 Volts ignition system. If the system is 6 or 24 Volts the ignition timing can still be adjusted by using a separate 12 Volt battery for the power supply.
- volts
- rpm
- dwell
- advance degrees

19 **306497** Digital infrared thermometer
with built-in laserpointer for exact measurement. Temperature range from -20 to + 520°C or -4 to 968°F. Accuracy: +/-2°C or 2% of the reading. Response time: 500 mSec. Resolution: 0.2°. Now with an easy-to-use pistol design and illuminated display. Suitable for a lot of tasks around the car and workshop. Check the temperature of the engine, muffler, tires and brakes. Which cylinder is getting hot? A fast detection of faulty components can save time and prevent expensive repairs and severe damage.

no ill. **471684** Reserve battery for infrared thermometer 306497

20 **221361** Tachometer
digital gauge with Laser RPM pick up. With 5 digit LCD-display and a measuring range from 0,1 up to 19999 RPM, Accuracy: +- 0.05%+1 RPM. The built in memory saves min. and max. RPM and the last measured value. Needs four 1.5V AA batteries, not included. With this special meter all rotating parts can be checked. Great diagnostic tool for gearbox, final drive and many other applications on automotive service and repair

Engine oils

1 Castrol Classic Engine oil XL30
original oil type for TR2, TR3, TR3A and TR3B models.
For pre-1960 veteran, vintage and classic cars. A high quality monograde engine oil which is also used in most types of manually operated gearboxes fitted to vintage and classic cars. This oil offers excellent cold temperature starting and improved oil pressure at high operating temperatures.
329069 4.5 litre, not available in Germany
480856 5 litre

2 Castrol Classic Engine oil XL20W/50
a conventional multigrade engine oil of good all round performance, formulated with high quality mineral oils plus selected additives, ideally suited to older technology and classic car engines. Offers excellent oil consumption and a very high level of engine wear protection.
Castrol recommendation for TR2 to TR4A models.
329066 4.5 litre, not available in Germany
480855 5 litre

3 Penrite Engine oil HPR30
this premium oil offers a unique viscosity range, are non-friction modified, multigrades made in Australia specially for high temperatures, high speeds and high loads. Formulated for use in conventional engines operating under a high load environment. It provides better oil pressure and consumption control. A SAE20W/60 oil which replaces originally recommended SAE30 und 20W/50 oils. This oil meets the requirements of API SM/CF, ACEA A3/B3, M2C 153G, VW 501.01.
Penrite recommendation for TR2 to TR4A models.
22856 5 litre
22857 1 litre

4 Penrite Engine oil Classic 20W/50
a high quality, non-friction modified engine oil for classic cars manufactured between 1960 and 1980. This 20W/50 oil meets the performance requirements of API SJ/CF. Suitable for general purpose applications in mid range motor vehicles.
294698 5 litre

Running in oils
are designed to promote and control the bedding in process of newly rebuilt engines. Drive the car under moderate loads and revs for 500 miles and then carry out normal drain procedures. Refill the engine with manufacturer recommended oil and drive the car under normal conditions but not under excessive loads for a further 1200 miles. Drain the oil and replace with new lubricant. Oil filter changes should be made each time the engine bubricant is replaced.

5 Castrol Running in oil No. 2
mineral based, multigrade, crankcase lubricant. Designed to facilitate running-in of new and reconditioned diesel and petrol engines.
329078 5 litre

6 Penrite Running in oil SAE 20W/50
meets the requirements of API SF/CC specifically formulated to provide the best possible lubrication during the critical run-in period.
212134 5 litre
212133 1 litre

Gearbox oils

7 Castrol Gearbox oil EP90 - TR2 to TR4A
mineral based, extreme pressure, multi-purpose gear oil. Primarily recommended for the lubrication of spur and helical gears where the manufacturer recommends an EP oil.
290203 1 litre

8 Penrite Gearbox oil Mild EP - TR2 to TR4A
an extreme pressure automotive gear oil meeting the requirements of API GL4 for moderate load applications. Mild EP is designed for use in all steel gear sets in Vintage and Classic cars of the 1950's and 1960's. Also suitable for use in many gearboxes where a mild level of extreme pressure protection is required. Benefits: protects against wear, good anti-friction characteristics, compatible with copper aooly components and protects against corrosion, can be used where either SAE90 or SAE140 grades are recommended. Penrite Mild EP gear oil meets the performance requirements of API GL-4 and MIL-L-2105.
212132 1 litre

Oils for rear axle and differential

9 Castrol Gear oil EP90 - TR2 to TR4A
mineral based, extreme pressure, multi-purpose gear oil. Primarily recommended for the lubrication of spur and helical gears where the manufacturer recommends an EP oil.
290203 1 litre

10 Penrite Gear oil Mild EP - TR2, TR3 to TS13045
an extreme pressure automotive gear oil meeting the requirements of API GL4 for moderate load applications. Mild EP is designed for use in spiral bevel, worm and pre 1960 hypoid axles. Benefits: protects against wear, good anti-friction characteristics, compatible with copper aooly components and protects against corrosion, can be used where either SAE90 or SAE140 grades are recommended. Penrite Mild EP gear oil meets the performance requirements of API GL-4 and MIL-L-2105.
212132 1 litre

11 Penrite Gear oil Hypoid 80W/90 - TR3 from TS13046, TR3A, TR3B, TR4 and TR4A
suitable for most post-1960 hypoid and spiral bevel gear sets where SAE 80, SAE 90 or SAE 80W-90 was specified. Meets requirements of API GL-5.
485836 1 litre

Oils for lever shock absorbers

12 Castrol Damper oil SAE 20W for lever shock absorbers
Castrol Fork Oil provides the following benefits: improved damping performance over a wide range of temperatures, fast air release for anti-fade performance, wear protection of suspension components, protection against corrosion of all the internal parts, Castrol's mineral Fork Oil range represents a new standard in mineral suspension fluid technology and can be used in all competition and on-road units. By intermixing the grades the optimum suspension fluid can be designed to suit all types of service and load to maximise suspension performance.
200318 500 ml

13 Penrite Damper oil for lever shock absorbers
373933 No. 1 - perfect oil for general use. 500 ml
305185 No. 2 - perfect oil for racing and heavier cars. 500 ml

Lubricants for non-rack and pinion steering boxes

14 Penrite Steering box lube - TR2, TR3, TR3A and TR3B
a high viscosity lubricant. Ideal for non-rack and pinion steering boxes fitted to veteran and vintage automobiles. Benefits: Just pourable at normal ambient temperatures, excellent shear stability, will not channel, helps control leakage.
355371 0.5 litre

15 Unipart Steering box lube Hypoid EPA 80W-90 - TR2, TR3, TR3A and TR3B
extreme pressure multigrade hypoid gear oil for use in non-rack and pinion steering boxes. Suitable for applications where the vehicle manufacturer recommends the use of either SAE 80, 90 or 80W-90 viscosity gear oil to API GL-4 performance level. Particulary effective over a wide temperature range. Meets or exceeds MIL-L-2105.
20735 0.5 litre

Further oils and lubricants

16 Castrol LM Grease
lithium based, high melting pot grease, specifically designed as a wheel bearing grease for use over a wide range of temperatures. Also suitable for general purpose applications. Temperature range: -30°C to +120°C.
329093 500 g

17 Penrite high melt bearing grease
calcium complex base grease especially suitable for wheel bearings where exposure to water spray and therefore grease wash-out was a problem.
212127 500 g

18 Castrol Everyman Oil
high quality light lubricant for locks, hinges, linkages and much more.
329103 250 ml

Pouring jugs

1 Car cover
our Car covers are made from high quality materials to ensure that your quality expectations will always be met and surpassed. We use the latest generation materials, double stitching, durable securing straps and purpose made fittings. The range of cover materials to us is, quite simply, vast. We made two indoor covers (ivory and red) and one heavy duty outdoor cover (grey). The breathable indoor covers are made from 100% pure cotton and are supplied with a compact, sturdy bag. The heavy duty outdoor cover comes with a soft lining to protect paintwork. These are substantial covers weighing about 3 kg and packed in a sturdy zipped storage bag with handles. The grey coloured outer skin is soft and pliable, yet totally waterproof, and the stitches seams are heat sealed.
Of course you can order your free colour sample: 373538 (ivory), 247615 (red) and 355026 (grey)
318044 Ivory indoor car cover
318057 Red indoor car cover
349115 Grey outdoor car cover

2 **318071** Wing cover in red
fixed with magnets. Size: 100 x 57 cm

3 **318723** Duster
made of 100% soft cotton. Lifts dust without scratching the paint

4 **355878** Oil drip mat
sizes: 90 x 120 cm, oil consumption: 4 litre

Luster Lace chrome polish 16.1
Luster Lace polishing strips 21.10

M

Magnetronic ignition system . . . 21.19
Mahle pistons. 1.3, 21.1
Main bearing, crankshaft 1.3
Main jet, SU-H4 . . . . . 6.3
Main jet, SU-H6 . . . . . 6.6
Main jet, SU-HS6 . . . . . 6.12
Mainshaft, gearbox TR2-3A 2.2
Mainshaft, gearbox TR3B-4A 2.4
Mallory distributor 21.20
Manifold gasket 1.5, 9.1
Medallion on bonnet,
TR4, TR4A 18.3
Medallion on front valance,
TR2-3B 18.1, 18.2
Medallions and scripts 21.26
Metal polish, Autoglym 16.3
Metal signs 21.26
Metering needle, SU-H4. . . . . 6.3
Metering needle, SU-H6. . . . . 6.6
Metering needle, SU-HS6. . . . . 6.12
Metering needle,
Zenith Stromberg carburettor 6.9
Michelin tyres. 21.18
Mike Sanders body
cavity grease 15.6
Minator alloy wheels. 21.18
Mirror 19.5
Mirror, interior, TR2-3B 19.3
Mirror, interior, TR4-4A. 19.4
Mitex brake pads 21.17
Mitsuba fuel pump 21.7
Mohair hood and covers,
TR2 from TS5256, TR3-3B 20.16
Mohair hood and covers,
TR2 to TS5255 . . . . . .20.15
Mohair hood and covers,
TR4. . . . . .20.17
Mohair hood and covers,
TR4A 20.18
Mohair tonneau, TR2 from
TS5256, TR3-3B 20.16
Mohair tonneau,
TR2 to TS5255 . . . . . .20.15
Mohair tonneau, TR4. . . . . .20.17
Mohair tonneau, TR4A. 20.18
Moto-Lita boss kits 21.14
Moto-Lita leatherrim
steering wheel 21.13
Moto-Lita woodrim
steering wheel 21.12
Mouldings, TR2-3B 18.10
Mouldings, TR4-4A 18.11
Mudflaps 21.32

N

Narrow fan belt
conversion kit 4.4, 21.5
NGK spark plug 14.4
NGK spark plug cap 14.4, 21.20
Number plate lamp 14.21
Nut splitter. 21.30
Nuts 22.1
Nylatron bushes for
leaf spring 21.16
Nylatron bushes,
front suspension. 21.15
Nyloc nuts 22.1

O

Octagonal spinner. 13.1, 21.18
Oil cooler. 21.6
Oil cooler fitting kit. 21.6
Oil drip mat 21.32
Oil filler cap 1.5
Oil filter. 1.6, 1.7, 1.8
Oil filter adaptor, Purolator 1.6
Oil filter adaptor, Tecalemit 1.8
Oil filter head. 1.7
Oil filter head, Purolator 1.6, 1.7
Oil filter head, Tecalemit 1.8
Oil filter mag 21.6
Oil filter, element - paper. . . . 1.6, 1.7
Oil pressure gauge, TR2-3B 14.8
Oil pressure gauge, TR4-4A 14.11
Oil pressure valve. 1.6
Oil pump 1.2
Oil pump, uprated. 21.1
Oil seal, crankshaft 1.4, 21.1
Oil seal, gearbox TR2-3A 2.1
Oil seal, gearbox TR3B-4A 2.3
Oil seal, overdrive. 2.6
Oil stat 21.6
Oil sump 1.2
Oil sump, aluminium 21.1
Oil, carburettor damper oil. 6.4
Oils 21.31
On board tool kit 21.30
Optronic ignition system 21.19
Outer sill, TR2-3B 15.6
Outer sill, TR4-4A 15.10
Overdrive. 2.5
Overdrive with gearbox 21.3

P

Panel light, TR2-3B 14.9
Panhead screws 22.1
Payen cylinder head gaskets 1.5
Pedal rubber, brake. 12.3
Pedal rubber, clutch 3.2
Pedal shaft. 12.3
Pedal, accelerator pedal 5.1
Pedal, brake. 12.3
Pedal, clutch 3.2
Penrite. 4.1, 21.5
Penrite gear oil. 21.31
Penrite oils. 21.31
Pertronix ignition system 21.19
Petrol hose, per meter. 21.7
Petrol pipe, TR2-3B. 7.3
Petrol pipe, TR4 . . . . . 7.4
Petrol pipe, TR4A 7.5
Petrol pump, Facet 21.7
Petrol pump, Mitsuba 21.7
Petrol pump, TR2-3B. 7.3
Petrol pump, TR4 . . . . . 7.4
Petrol pump, TR4A 7.5
Petrol regulator. 21.7
Petrol tank, aluminium 21.7
Petrol tank, TR2-3B. 7.1
Petrol tank, TR4-4A. 7.2
Phoenix exhaust system 21.10
Phoenix tubular manifold. 21.10
Pillar, TR2-3B 19.3
Piston rings 1.3
Piston set 1.3
Piston set, aluminium 21.1
Pistons, County 1.3
Pistons, Mahle 21.1
Plastic cleaner 20.19
Plastic gearbox tunnel, TR4-4A. . .15.12
Plate washers. 22.1
Points (distributor) 14.3
Polish, Swissvax 21.24
Polyurethane bushes for
leaf springs 21.16
Polyurethane bushes,
front bushes. 21.15

Pouring jugs, Castrol Classic . . . 21.31
Private lock set, TR2-3B 18.8
Private lock set, TR4-4A. 18.9
Prop rod for bonnet, TR4-4A . . . 18.3
Propshaft 11.9
Propshaft for Getrag gearbox . . . 21.3
Puller for rear hub 21.29
Pulley for crankshaft 1.3, 21.1
Punch pliers 20.16
Purolator oil filter head 1.6, 1.7
Push rod 1.5
Push rod, competition 21.1

Q

Quaiffe limited slip differential . . 21.16

R

Radiator grille, TR2-3B 17.1
Radiator grille, TR4-4A. 17.2
Radiator guard, TR4A IRS. 15.4
Radiator guard,
TR4A solid axle. 15.3
Radiator hose. 4.3
Radiator, aluminium 21.5
Radiator, TR2-4. . . . . 4.1
Radiator, TR4A 4.2
Ram pipe for SU carburettors . . . 21.9
Rear hard top screen, TR2-3B. . .20.19
Rear lamp 14.20
Rear screen, surrey top
TR4-4A. 20.20
Rear seats, TR2 . . . . . 20.1
Rear seats, TR3 . . . . . 20.2
Rear seats, TR3A-3B 20.3
Rear seats, TR4 from
middle of 1963 . . . . . 20.5
Rear seats, TR4 to
middle of 1963 . . . . . 20.4
Rear seats, TR4A. 20.6
Rear shock absorber,
TR2-4 from CT23383 . . . . . .11.2
Rear shock absorber,
TR2-4 to CT23382. . . . . 11.1
Rear shock absorber,
TR4A solid axle. 11.3
Rear silencer, TR2-4 . . . . . 9.2
Rear silencer, TR4A from 70001 . . 9.4
Rear silencer,
TR4A to CTC70000 . . . . . 9.3
Rear suspension IRS,
shock absorber. 11.4
Rear suspension, Girling 11.6
Rear suspension, Lockheed 11.5
Rear valance, TR2-3B 15.5
Rear valance, TR4-4A. 15.9
Rear view mirror. 19.5
Rebuilt kit,
front suspension TR2-4 . . . . . 8.2
Rebuilt kit,
front suspension TR4A. 8.5
Redline Water Wetter. 4.1, 4.2
Release bearing, clutch 3.1
Release bearing, clutch,
reinforced roller type. 21.4
Remote control housing,
TR2-3A. 2.1
Remote control housing,
TR3B-4A. 2.3
Repair panels, front TR2-3B 15.7
Repair panels, inner,
front TR4-4A. 15.11
Repair panels, outer, TR2-3B . . . 15.6
Repair panels, outer, TR4-4A . . . 15.10
Revolution wheels. 21.18
Revolving punch pliers 20.16
Rim band. 13.1
Ring gear, flywheel 1.3
Rocker. 1.5
Rocker cover 1.5, 21.2
Rocker cover gasket 1.5, 21.2
Rocker shaft. 1.5
Rocker shaft, roller tip type 21.2
Rocker shaft, TR2-3B. 10.1
Rotor arm 14.3
Rubber mats, TR4-4A. 20.14
Rust converter, Fertan 15.7
Rust-preventive for
cooling system 4.1
Rust-preventive, Fluid Film. 15.4

S

Screen wash, Autoglym 20.17
Screws. 22.1
Script on boot lid 18.5
Script ‚Triumph‘ on bonnet 18.3
Script ‚Triumph‘ on
rear shroud 18.4
Scripts and badges 21.26
Sealed Beam head lamp 14.18
Sealing washers 22.1
Seat belts 21.32
Seats and seat covers, TR2 . . . . 20.1
Seats and seat covers, TR3 . . . . 20.2
Seats and seat covers,
TR3A-3B 20.3
Seats and seat covers,
TR4 from middle of 63 . . . . . 20.5
Seats and seat covers,
TR4 to middle of 63 . . . . . 20.4
Seats and seat covers, TR4A . . . 20.6
Self tapping screws. 22.1
Shakeproof washer 22.1
Shock absorber conversion 21.16
Shock absorbers, front TR2-4. . . . 8.1
Shock absorbers, front TR4A 8.4
Shock absorbers, Gaz, front 21.15
Shock absorbers, Gaz, rear 21.16
Shock absorbers, Koni, front . . . 21.15
Shock absorbers, Koni, rear 21.16
Shock absorbers, rear IRS 11.4
Shock absorbers,
rear TR2-4 from CT23383. . . . . .11.2
Shock absorbers,
rear TR2-4 to CT23382 . . . . . .11.1
Shock absorbers,
rear TR4A rigid axle. 11.3
Side lamp, front 14.19
Side light, front 14.19
Side screen fastener 19.1
Side screen, TR2-3B 19.1
Side window, TR3A-3B. 19.1
Sill, TR2-3B 15.6
Sill, TR4-4A 15.10
Slotted nuts 22.1
Smiths fuel sender unit 7.2
Socket set 21.30
Sofitten bulb 14.25
Solenoid, overdrive. 2.5
Solenoid, starter motor 14.6
Sound deadening kit, TR2-3B. . .20.13
Sound deadening kit, TR4-4A. . .20.14
Spanner for oil filter plug 21.29
Spare wheel tray, TR2-3B. 15.8
Spare wheel tray, TR4-4A. 15.12
Spark plug 14.4
Spark plug cap 14.4, 21.20
Spark plug wrench 21.30
Spark plug, glass 21.30
Speedograph air filter 21.9
Speedometer pinion 2.5
Speedometer, TR2-3B 14.8
Speedometer, TR4-4A 14.11
Spinners for wire wheels . . 13.1, 21.18

Spire nuts 22.1
Split pin and clevis pin 22.1
Spot lamp 21.21
Spray, stainless steel. 17.2
Spring washer 22.1
Square key for boot lid,
TR2-TR3B. 18.4
Square key for side screens,
TR3A-3B 19.1
Stainless steel braided
brake hoses 21.17
Stainless steel braided
clutch hoses. 21.4
Stainless steel bumper . . . 16.2, 21.25
Stainless steel
exhaust system. 21.10
Stainless steel
exhaust system, TR2-4 . . . . . 9.2
Stainless steel exhaust system,
TR4A from 70001 . . . . . 9.4
Stainless steel spray 17.2
Stainless steel threshold plate . . 21.25
Stalk, side and headlamps,
TR4-4A. 14.12
Starter battery 14.5, 21.22
Starter motor 14.2
Starter motor, high performance . 21.23
Starter switch, TR2-3B. 14.9
Starting handle. 13.2
Steel nuts 22.1
Steering box lube 21.31
Steering box, TR2-3B. 10.1
Steering column, TR2-3B 10.1
Steering column, TR4-4A 10.4
Steering lever, TR2-3B 10.1, 10.2
Steering lever, TR2-4 . . . . . 8.3
Steering lever, TR4A 8.6
Steering rack 10.3
Steering rack, conversion kit . . . 21.11
Steering rack, TR4-4A 10.3
Steering rod, TR2-3B. 10.2
Steering rod, TR4-4A. 10.3
Steering wheel 10.4, 21.12, 21.13
Sticker. 21.26
Stoneguard 21.21
Stoneguard for oil sump, TR2-3B . 15.1
Stoneguard for oil sump, TR4. . . 15.2
Stoneguard for oil sump, TR4A. . 15.3, 15.4
Stoneguard for radiator, TR2-3B . . 15.1
Stoneguard for radiator, TR4 . . . 15.2
Stoneguard, rear wing, TR2-3B . . 18.10
Stromberg carburettor 6.7
Stub axle, TR2-4 . . . . . 8.3
Stub axle, TR4A 8.6
Stud kit, ARP 21.1, 21.2
Studs. 22.1
Stups. 21.9
SU Air filter 21.9
SU carburettor 21.8
SU carburettor cleaner. 6.4
SU carburettor, H4 . . . . . 6.1
SU carburettor, H6 . . . . . 6.4
SU carburettor, HS6 . . . . . 6.10
Sun visor 21.25
Sun visor, TR4-4A 19.4
Supastrobe 21.30
Surrey top, TR4-4A 20.20
Swissvax leather care kit 20.12
Swissvax wood polish 21.24

T

Tachometer, TR2-3B 14.8
Tachometer, TR4-4A. 14.11
Tank, TR2-3B 7.1
Tank, TR4-4A 7.2
